Countering Design Exclusion Simeon L. Keates,P. John Clarkson,2012-12-06 Inclusive design universal design and universal access are long standing familiar terms with clear and laudable goals However their teaching and industrial uptake has been very limited Many products still exclude users unnecessarily for reasons ranging from corporate insensitivity and the size of the market for inclusive products to the individual designer s inability to design them This pragmatic approach to making inclusive design desirable to industry addresses these issues and discusses why existing methods have failed to be assimilated into industry Through the use of case studies and examples Countering Design Exclusion introduces the mind set necessary to think through the challenges raised by inclusive design and to adapt their solutions to the needs of particular companies The practical outlook will appeal to anyone who wishes to take account of the largest possible part of the population in their designs Universal Access in Human-Computer Interaction: Design and Development Methods for Universal Access Constantine Stephanidis,Margherita Antona,2014-05-15 The four volume set LNCS 8513 8516 constitutes the refereed proceedings of the 8th International Conference on Universal Access in Human Computer Interaction UAHCI 2014 held as part of the 16th International Conference on Human Computer Interaction HCII 2014 held in Heraklion Crete Greece in June 2014 jointly with 14 other thematically similar conferences The total of 1476 papers and 220 posters presented at the HCII 2014 conferences was carefully reviewed and selected from 4766 submissions These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems The papers thoroughly cover the entire field of human computer interaction addressing major advances in knowledge and effective use of computers in a variety of application areas The total of 251 contributions included in the UAHCI proceedings were carefully reviewed and selected for inclusion in this four volume set The 51 papers included in this volume are organized in the following topical sections design for all methods techniques and tools development methods and tools for universal access user models adaption and personalization natural multimodal and multisensory interaction and brain computer interfaces **Focus On: 100 Most Popular Sedans** Wikipedia contributors, Big Data Research for Social Sciences and Social Impact Miltiadis D.
