Classroom-based Assessment in L2 Contexts Dina Tsagari, 2016-06-22. This edited volume addresses issues that promote the notion of Classroom-based Language Assessment (CBLA) for the academic community and beyond. The book explores recent thinking and research on CBLA within the fields of language testing, assessment, and general education based on theoretical and research papers presented at the recent CBLA SIG EALTA Symposia held in Cyprus and the pre-conference EALTA workshops in various countries around Europe. The volume contains 17 chapters which involve both high-stakes tests and classroom-based assessments conducted by academics, professionals, and researchers in the field. NOAA Technical Memorandum ERL GLERL, 1991. **Editor & Publisher**, 1929. The fourth estate. **Citizenship and Democracy in Further and Adult Education** Neil Hopkins, 2013-07-30. This book addresses the questions why citizenship education is an important subject for students in further and adult education and why we need democratic colleges to support the study of citizenship education. It investigates the historical roots of further and adult education and identifies how the adoption of citizenship education in the post-compulsory sector can enrich vocational studies in further education and programmes in adult education. It is argued that democratic colleges are vital to ensure that citizenship education informs the decision-making process throughout educational institutions and as a means of establishing fair and equal representation for important stakeholders. The author has worked in both sectors for over a decade and uses this experience to offer a blend of educational practice and philosophical investigation. The result is a work that appeals to both teachers in further and adult
