

Exploring music in context

Introduction

Music have different kind of purposes and kinds, all of them might have a great impact in the world. I have decided in exploring diverse music in context, I will be covering two area of inquiries which are the Music for Listening and performances or in other word absolute music (Area of inquiries 2) and also Music for dramatic impact, movement and entertainment (Area of inquiries 3). Music for listening and performance are musics that is made to be performed and valued from their aesthetical aspect while the other inquiries that I choose are made for entertainment and as a complimentary music in an action whether it is movies or even ballets. These two area of inquiries are almost the same yet what is interesting is that, the inquiries have different purposes and have some interesting differences.

Throughout this exploration in diversity of music in overall context, I would expect myself to get a deeper understanding towards music and also to see music in different perspectives. This might help me improve my overall music skill and get to know music further. In the Music for Listening and performances (Area of inquiries 2), I decided to analyze Autumn Leaves by Joseph Kosma and Nocturne op.9 No.2 by Chopin. In this inquiry I will be analyzing jazz and classical music that is in the same inquiry. As for the Music for dramatic impact, movement and entertainment (Area of inquiries 3) I will be analyzing The Swan by Camille Saint-Saëns and also Merry goes round from Howl's Moving Castle Ghibli movie. Songs from inquiry 2 are valued by the aesthetical aspects while the 3rd inquiry is based on how it affect a movie or even a dance like ballet. All the piece explored here have a global context, which are from unfamiliar and different cultures and places.

AREA OF INQUIRY 2

This area of inquiry expresses and communicates intrinsic aesthetic values of a music where they are usually called absolute music, this includes chamber music of the western art tradition, cool jazz, or experimental music. The aesthetic values behind this music derived from debates over the value of fine arts. The piece that I picked to analyse for this area of inquiry are Autumn Leaves by Joseph Kosma and Nocturne op.9 No.2 by Chopin. These two pieces are different in genre yet they both have some similarities including their purpose of creation, where both of them are a kind of abstract music which not refering to something and just pure for music performance. Starting off with the first song which is Joseph Kamal's "Autumn Leaves", this piece is a very important for jazz music era, because not all jazz composers can write a standart jazz that is widely known and listened to around the world. This song is composed or written around 1945, which is around the Common Era, and is released at 1946 by Enoch. This music is written for pure music performance. This music has been adapted to many different languages around the world and also sang or played by numerous musician around the world including Roland Petite, Yves Montand, Johnny Mercer, Marlene Dietrich, and much more.

Interestingly, Autumn Leaves musical structure is somewhat similar to classical music composition. Ever since its publication, this jazz musical piece evolve together as time pass by and it encountered various changes and rearrangements. Its musical structure overall is in AABC form; more specifically, the 24 verse bars is an AA'B form, yet the original version have only 12 bars, and the AAB'C form chorus was originally written in 16 bars, but now 32 bars structure is often used. The musical structure of this piece offers a typical jazz feels. This piece is originally written in G major but it is usually played in Bb major or G minor, where the tempo is medium tempo or around allegro and also played in 4/4. The chord progression is ii-V-I and ii-V which are often use in jazz composition. One of the example of the chord progression is iv⁷-VII⁷-III^{ma7}-VI^{ma7}-II^{ma7}-V⁷-I. This chord progression is called as the circle of fifth's progression which means that the one where the roots of the chords are related to each other specifically by ascending 4ths

Music and Heritage Liam Maloney, John Schofield, 2021-04-13 *Music and Heritage* provides new thinking about the diverse ways people engage with heritage. By exploring the relationships that exist between music, place and identity, the book illustrates how people form attachments to place and how such attachments are represented by sound and music making. Presenting case studies and perspectives from across a range of genres, the volume argues that combining music with heritage provides an alternative and productive opportunity to think about heritage values and place attachment. Contributions to this edited collection use a diversity of methods, perspectives, cues and genres to reflect critically on issues related to these and other interconnections in ways that encourage new thinking about the character, meaning and purpose of cultural heritage and the various ways in which people can interact with it through sound, thus re-encountering the supposedly familiar world around them. Taking heritage studies, musicology and place-making research in new directions, *Music and Heritage* will be of interest to academics and students engaged in the study of heritage, history, music, geography and anthropology. It will also be relevant to those with an interest in how music relates to place-making and place attachment, as well as to practitioners and policymakers working in the planning, design and creative sectors.

Arts & Humanities Citation Index, 1997 The Illustrated London News, 1858

Objects of Translation Finbarr Barry Flood, 2022-07-12 *Objects of Translation* offers a nuanced approach to the entanglements of medieval elites in the regions that today comprise Afghanistan, Pakistan and north India. The book, which ranges in time from the early eighth to the early thirteenth centuries, challenges existing narratives that cast the period as one of enduring hostility between monolithic Hindu and Muslim cultures. These narratives of conflict have generally depended upon premodern texts for their understanding of the past. By contrast, this book considers the role of material culture and highlights how objects such as coins, dress, monuments, paintings and sculptures mediated diverse modes of encounter during a critical but neglected period in South Asian history. The book explores modes of circulation among them: looting, gifting and trade through which artisans and artifacts traveled, remapping cultural boundaries usually imagined as stable and static. It analyzes the relationship between mobility and practices of cultural translation and the role of both in the emergence of complex transcultural identities. Among the subjects discussed are the rendering of Arabic sacred texts in Sanskrit on Indian coins, the adoption of Turko-Persian dress by Buddhist rulers, the work of Indian stone masons in Afghanistan and the incorporation of carvings from Hindu and Jain temples in early Indian mosques. *Objects of Translation* draws upon contemporary theories of cosmopolitanism and globalization to argue for radically new approaches to the cultural geography of premodern South Asia and the Islamic world.

New York Magazine, 1971-03-29 *New York Magazine* was born in 1968 after a run as an insert of the *New York Herald Tribune* and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back

to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea
