

# Types of Maps

Geographers use different kinds of maps depending on what they are studying.

## Political Maps

A **political map** shows the borders between countries or states. They can show other human features, such as cities, capitals, or roads. This political map shows the countries of North America. Canada is to the north of the United States and Mexico is to the south of the United States.

Several much smaller countries are located in the Caribbean, the group of islands near North America.

## Physical Maps

Maps that show natural features are called **physical maps**. Physical maps show landforms, such as mountains, valleys, and plains. Physical maps also show bodies of water, such as rivers, lakes, and oceans.

Mapmakers use different colors, shading, or symbols to show the different landforms.
