Management Accounting Professor Carsten Berkau, 2020-04-20 Management Accounting is written for students in international Business Management study programs. It covers the widely applied syllabus of Cost Accounting and Management Accounting at universities on bachelor's and master's level. The book is based on more than 20 years academic teaching experience in Germany and at international universities in South Africa, Malaysia, China, the Netherlands and South Korea. It covers two points of view: 1. a General Management view with aspects of business planning, cost volume profit analysis, degree of operating leverage, mergers and cross border acquisitions and risk valuation. 2. a Cost Accounting view with Management Accounting systems, flexible budgeting, cost allocations, performance measurement and monitoring, reporting, calculation, manufacturing accounting, job order and process costing, activity based costing and multi level contribution margin Accounting. On the UVK website numerous exam tasks and complete solutions thereto are available in English.
