

## Invertebrate Classification Challenge

I designed this activity to allow students to practice invertebrate classification using the signatures described to us without their (Daphnia)Shell with the Period of Echin. document.

I printed the pages for the classification challenge at 8 1/2 x 11 each page, taped the two pages together, and laminated them. I also made several copies of the signature cards, which were printed at each student and placed in Ziploc bags.

For the activity, students were to learn to classify the signatures and then compare their guesses to the key answer sheets. I also provide the "What are?" questions for students to fill in and suggest to them some projects as they can study invertebrates of class. I also give them a quiz or discussion which covers they know and which ones they don't.

Challenge: I also challenge the students to see that others in an article that can complete it in the future time. Many of my students are able to complete all of the signatures in 10 minutes or less. Trainers must have perfect method step there. The class is surprisingly fast shuffling the cards and placing them in one pile at the end of a round.
