Modeling and Measuring Competencies in Higher Education Sigrid Blömeke, Olga Zlatkin-Troitschanskaia, Christiane Kuhn, Judith Fege, 2013-04-20 Measuring competencies acquired over the course of higher education is an area of research that largely has been neglected This deficit can be attributed to the complexity of academic competencies since the variety of institutions programs occupational fields and job requirements render it difficult to define and even harder to measure outcomes Thus assessing the preconditions for and effects of competency development is a challenge methodologically In this book a comprehensive review of the international state of research on modeling and measuring competencies in higher education across several academic disciplines is presented along with an evaluation of the field's strengths and weaknesses Renowned experts share insight into the most important recent research projects and point out controversies and challenges Competencies are regarded as context specific dispositions acquired and required to cope successfully with domain specific situations and tasks However the range of these dispositions is controversial Should only cognitive facets be included or is it important to consider attitudes as well Insufficient response rates and panel attrition are further challenges as are the limitations of paper and pencil approaches to the complex measurement of higher education outcomes Thus this book may serve as a platform for the exchange of research experiences and perspectives and hopefully will instigate improvements in research into higher

education Technical Issues in Large-scale Performance Assessment Gary W. Phillips,1996 Resources in Education,2000-10 Evaluating Children's Writing Suzanne Bratcher,Linda Ryan,2003-09-12 Evaluating Children s Writing A Handbook of Grading Choices for Classroom Teachers Second Edition introduces and explains a wide range of specific evaluation strategies used by classroom teachers to arrive at grades and gives explicit instructions for implementing them Samples of student writing accompany the instructions to illustrate the techniques and an appendix of additional student writing is provided to allow readers to practice particular evaluation strategies More than just a catalog of grading options however this is a handbook with a point of view Its purpose is to help teachers become intentional about their grading practices Along with recipes for grading techniques it offers a philosophy of evaluating student writing that encourages teachers to put grading into a communication context and to make choices among the many options available by determining the instructional purpose of the assignment and considering the advantages and disadvantages of particular grading strategies Specific grading techniques are integrated with suggestions about the craft of evaluation guidelines for instructional objectives for student audience analysis and for teacher self analysis that help define communication contexts New in the Second Edition a new chapter on state standards and assessments a reorganization of the chapter on approaches to grading additions to the chapter on management systems additions to the chapter on teaching yourself to grade additions to the annotated bibliography and updated references throughout the text **Authentic Assessment and Curriculum Alignment** Betty E.
