

PRACTICE PLAN #3 — THROWING & FIELDING

90 MIN	ACTIVITY	NOTES
10 minutes	Warm-up: <ul style="list-style-type: none"> • Arm circles & stretches. Leg stretches • Light jogging, 200-400 feet • Short & long toss. Demonstrate fundamentals of playing catch starting with short toss (15 feet) ending with long toss (100 - 250 feet) 	The purpose of early season warm-ups is to slowly build-up arm strength. Focus on technique & fundamentals. It will take several practices to build up speed, accuracy & throwing distance
10 minutes	Ground Ball Fundamentals: Have players pick a partner and create two lines with players facing each other. Lines should be about six feet apart with six feet between players in each line. Each set of players will have a ball. Players should put gloves behind them. Player without ball should be in a fielding position; head up, butt low, arms in front of body & extended, hands out front with palms pointed out. Player with ball rolls it on the ground to teammate. Player fielding ball drops hands to ground. Hands should be extended in front of the body forming the mouth of an alligator. Bottom hand is glove hand and should touch the ground. Top hand should touch bottom hand at the wrist. Fingers should form an open mouth to receive ball. Players should alternate rolling the ball to each other, directly between players legs and then to each side. Players should shuffle feet side to side for balls thrown to their left & right. Objective is to field ball between legs. Drill should now be repeated with players using their gloves. Players should be reminded to keep fingers of glove touching the ground with throwing hand on top forming the mouth of all alligator.	Teaching point: It is important for players to learn proper positioning of legs, feet, arms & hands for fielding grounders. Repetition of drills with & without the use of gloves will improve skill level.
15 minutes	Fielding Ground Balls: Part 1: Players should form two lines, one along the first base line & the other along the third base line. An empty bucket should be placed on third base & on first base. Coach will be at home with a bucket of balls. Coach will hit balls to players in each line in rapid fashion. Players will field the ball and drop it in a bucket. Focus should be on a proper ready position & proper positioning of hands & head while fielding the ball. Players should also "round to the ball" so that feet and body are in position to make a throw. Part 2: Players should form a single line along third base. Two players should alternate playing first base. An empty bucket should be placed near first base. In rapid fashion hit grounders to players in line. Players will catch the ball & throw to players at first base. First baseman should drop ball in bucket after catching it. Have players focus on rounding to the ball and getting feet set before making throw. Make sure each player gets multiple fielding chances & then rotate two players to play first base. *****WATER BREAK*****	This is a rapid fire drill. Every player should get multiple chances to field grounders during drill. Focus more on proper technique than whether the ball is caught. When players are in the ready position, pocket of glove should be pointed at hitter. Palm of throwing hand should also point at hitter....hands should not be on knees.
