movement for the improvement of inspection had been taken by the Bureau of Animal Industry that the inspectors were doing their whole duty under the authority which they then had and that the health of the meat consumer was reasonably well guarded Nevertheless with the passage of the law of June 30 1906 meat inspection was placed on a better basis Under the new law the inspector cannot recognize lesions which were previously unrecognizable nor can he perform his duties more conscientiously than under the old law but he has authority to enforce sanitary measures where previously he could merely make suggestions It is in the field of general sanitation of abattoirs and packing rooms that the greatest changes for the better have taken place Under the new law it may be rightly asserted that the Bureau of Animal Industry has put in operation the most efficient meat inspection service known to the civilized world The inspection regulations reflect the most recent advances in our knowledge regarding the effect of animal diseases upon the wholesomeness of meat for food Only two sanitary qualities of meat are recognized meat to be passed and meat to be condemned Wholesome meat is not condemned and unwholesome meat is not passed The interests of both the consumer and producer are thus fully protected About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
