The Crash of 2016 Thom Hartmann, 2013-11-12 The United States is more vulnerable today than ever before including during the Great Depression and the Civil War because the pillars of democracy that once supported a booming middle class have been corrupted and without them America teeters on the verge of the next Great Crash The United States is in the midst of an economic implosion that could make the Great Depression look like child s play In THE CRASH OF 2016 Thom Hartmann argues that the facade of our once great United States will soon disintegrate to reveal the rotting core where corporate and billionaire power and greed have replaced democratic infrastructure and governance Our once enlightened political and economic systems have been manipulated to ensure the success of only a fraction of the population at the expense of the rest of us The result is a for the rich by the rich scheme leading to policies that only benefit the highest bidders Hartmann outlines the destructive forces planted by Lewis Powell in 1971 and come to fruition with the

Wagner, Frank K. Fair,2020-10-30 If our goal is Education for Knowing as the title says then we need to be guided by a conception of what knowing is For example we

can all agree that there are math facts that students need to learn and we can agree that there are general concepts and laws that students should be acquainted with But is there more involved perhaps something like nurturing in students a desire to probe deeper into the workings of thing Or developing a capacity to explain why things work the way they do Our conceptions of what genuine knowing is serve as guides to what we think the goal of education is and they tell us how to build a student However as it turns out there are multiple conceptions of what knowing truly involves and these conceptions tend to be different for different sets of education stakeholders such as parents and their children school administrators and educational researchers Understanding this diversity of conceptions of knowing will make it easier for representatives of the different stakeholder groups to work together to accomplish the goal of building knowing students
