MEERA RAGHAVENDRA RAO,2012-09-12 If we ask the lay readers why they read newspapers the obvious answer would be to get news However what keeps the newspaper endearing and in a way enduring are the longer stories about people behind the news about the humorous everyday experiences we all have or the closer look at someone and the unexpected surprises we get in the process In short we call these features In this substantially revised book on Feature Writing the author with her vast

experience discusses various aspects of Feature Writing She focuses on different types of features found in newspapers Humour and Satire Brights Human Interest Features Travel Features and News Features and illustrates each of these In addition she provides a detailed description of Profiles Interviews and Online Features with examples and gives a clear analysis of Feature Writing Techniques Intended as a text for students offering courses in Journalism this book would also be extremely useful for freelance writers and anyone who has a flair for writing What is New to THE SECOND Edition Includes two new chapters on Obituary and Tribute and Sports and new sections such as Blogs and Professionalism in Journalism Provides more illustrations culled from recent newspapers Gives explanatory notes on some key words used in the book and a section on Vocabulary What the Reviewers Say In this delightful book on FW Feature Writing Meera Raghavendra Rao brings home to us that writing a story or a novel is one way of discovering sequence in experience of stumbling upon cause and effect in the happenings of a writer s own life In my view Meera Raghavendra Rao s book on FW is an exceptionally good and useful book not only for all students of Journalism but also for all writers interested in FW V Sundaram News Today The author has used instances from her career spanning more than two decades to illustrate various situations in this book Deccan Chronicle The book is a rather exhaustive guide on ways to tell a feature story Among the other pluses is the Indianness permeating the book most sample articles are home brewn The Hindu Metroplus Weekend Rhetoric and Wonder in English Travel Writing, 1560-1613 Jonathan P.A. Sell,2020-07-24 Rhetoric and Wonder in English Travel Writing 1560 1613 shows how rhetorical invention elocution and ethos combined to create plausible representations by generating intellectual and emotional significances which meaningful in consensual terms were consensually true However some traveller writers betrayed an unease with such representation rooted as it was in a metaphorical epistemology out of kilter with an increasingly empiricist age This book throws new light onto the episteme shift that ushered in modernity with its distrust of metaphor in particular and rhetoric s wordish descriptions in general In response to the empirical desiderata of scientific rationalism traveller writers textually or physically made their own bodies available as evidence of their encounters with wonder thus transforming themselves into wonderful objects The irony is that far from dispensing with rhetoric they merely put the accent on its more dramatic arts of gesture and action The body s evidence could still be doctored but its illusory truths were better able to satisfy the empirical demand for ocular proof The author s main purposes here are to complement and sometimes counter recent work on early modern travel literature by concentrating on its use of rhetoric to communicate meaning and to suggest how familiarity with the workings of rhetoric and its communicative and epistemological premises may enhance readings of early modern English literature generally **Mosaic 1 Writing Instructor's Manual 4/E** MCGRAWHILL 2002 *American Library Edition of Workshop Receipts*,1903 **Writing for Pleasure** Ross Young,Felicity Ferguson,2020-12-29 This book explores what writing for pleasure means and how it can be realised as a much needed pedagogy whose aim is to develop children young people and their teachers as extraordinary

and life long writers The approach described is grounded in what global research has long been telling us are the most effective ways of teaching writing and contains a description of the authors own research project into what exceptional teachers of writing do that makes the difference The authors describe ways of building communities of committed and successful writers who write with purpose power and pleasure and they underline the importance of the affective aspects of writing teaching including promoting in apprentice writers a sense of self efficacy agency self regulation volition motivation and writer identity They define and discuss 14 research informed principles which constitute a Writing for Pleasure pedagogy and show how they are applied by teachers in classroom practice Case studies of outstanding teachers across the globe further illustrate what world class writing teaching is This ground breaking text is essential reading for anyone who is concerned about the current status and nature of writing teaching in schools The rich Writing for Pleasure pedagogy presented here is a radical new conception of what it means to teach young writers effectively today **Interactions Level**
