Mathematics Victor J. Katz, Karen Dee Michalowiz, 2020-03-02 Contains 11 modules consist of a number of activities designed
to demonstrate the use of the history of mathematics in the teaching of mathematics Objectives of the Modules To enable
students to develop a much richer understanding of mathematics and its applications by viewing the same phenomena from
multiple mathematical perspectives To enable students to understand the historical background and connections among
historical ideas leading to the development of mathematics To enable students to see how mathematical concepts evolved
over periods of time To provide students with opportunities to apply their knowledge of mathematics to various concrete
situations and problems in a historical context To develop in students an appreciation of the history connected with the
development of different mathematical concepts To enable students to recognize and use connections among mathematical
ideas To enable students to understand how mathematical ideas interconnect and build on one another to produce a coherent
whole To lead students to recognize and apply mathematics in contexts outside of mathematics Publisher *Holt*
