### **The Nature of Environmental Stewardship**

Johnny Wei-Bing Lin, 2016-02-08 Environmental issues appear deceptively simple science tells us what the problems are and how to solve them and for Christians the Bible motivates us to care for creation And yet both in society in general as well as in the Christian church in particular we cannot seem to agree on what to do regarding environmental issues In this book climate scientist Johnny Wei Bing Lin argues that determining the content of environmental stewardship far from being a straightforward exercise is a difficult and complex endeavor He sets forth a general taxonomy drawing from worldviews ethical theories science epistemology science policy studies politics and economics that can help us better understand what excellent creation care consists of and how to bridge the differences people have regarding environmental issues
