Clinical Neurotherapy D.Corydon Hammond, 2013-10-18 Nonpharmacological methods of therapeutically influencing the brain have become widely used by clinical practitioners and there is an accumulating body of outcome research This chapter introduces readers to existing neurofeedback EEG biofeedback methodologies as well as different modalities of neurotherapy for brain stimulation Neurofeedback methods include symptom based neurofeedback neurofeedback guided by quantitative electroencephalography data neurofeedback based on normative database Z score and LORETA data the Low Energy Neurofeedback System slow cortical potentials training fMRI neurofeedback hemoencephalography training and infra low frequency training Brain stimulation technologies include electroconvulsive therapy transcranial magnetic stimulation deep brain stimulation vagal nerve stimulation cranial electrotherapy stimulation transcranial direct current stimulation a pulsed electromagnetic stimulation device and audiovisual stimulation Ethical and standard of care issues and considerations for liability protection are then reviewed

Getting Started with Neurofeedback John N. Demos, 2005-01-17 What is neurofeedback Neurofeedback is founded upon computer technology

joined with auxiliary equipment that can measure the metabolic activity of the cerebral cortex Neurofeedback training combines the principles of complementary medicine with the power of electronics It is a comprehensive system that promotes growth change at the cellular level of the brain and empowers the client to use his or her mind as a tool for personal healing Until now there has not been a single comprehensive yet easy to understand guide for clinicians interested in adding neurotherapy to their practice Getting Started with Neurofeedback is a step by step guide for professional health care providers who wish to begin with neurotherapy as well as experienced clinicians who are looking for a concise treatment guide This book answers essential questions such as How does neurotherapy work What is the rationale for treatment When is neurotherapy the treatment of choice Why should I add it to my already existing healthcare practice The author also answers questions important to establishing a successful practice such as What kind of training should clinicians get What kind of equipment should clinicians buy How can clinicians add neurofeedback to their existing practice The first part of the book introduces the reader to the world of neurofeedback its history and scientific basis Case studies help clinicians apply what they are learning to their existing practice Demos takes the mystery out of the assessment process and charts and examples of topographical brain maps in full color serve as teaching aids Later in the book advanced techniques are explained and demonstrated by additional case studies The reader is shown how to use biofeedback for the body to augment neurofeedback training as well as being taught to work with the body and acquire a basic knowledge of complementary medicine The book concludes by offering clinicians practical suggestions on marketing their expanded practice purchasing equipment finding appropriate training and supervision and keeping up with the ever growing profession of neurofeedback Research and theory unite to demonstrate the clinical underpinnings for this exciting new modality Some images in the ebook are not displayed owing to permissions issues
