Contextualizing and Organizing Contingent Faculty Ishmael I. Munene, 2018-02-15 *Contextualizing and Organizing Contingent Faculty Reclaiming Academic Labor in Universities* seeks to develop a counterculture that eschews the neoliberal ideology and interloping market values in higher education More than merely lamenting the disruptive effects of these marketplace values in higher education institutions it develops both theoretical insights and practical organizing strategies pertinent to challenging new academic capitalist values and behaviors Contributors local and international present cases from various institutions to illuminate how national trends concerning contingent faculty are articulated implemented and challenged at the local level They present organizing strategies which are analyzed from an interdisciplinary perspective providing a thorough and comprehensive view of the contingent labor movement This book will provide useful lessons to a broad array of audiences in universities labor movements and national and local governments **Kenyatta University**

Tribune, 2003 *Transforming the Academia* Ishmael I. Directory, 2003 ***Etymological Dictionary of Succulent Plant Names*** Urs Eggli, Leonard E. Newton, 2013-06-29 Names are important elements to handle the diversity of items in daily life persons objects animals plants etc Without such names it would be difficult to attach information to such items and to communicate information about them and names are usually used without giving them much thought This is not different for plants When dealing with plants however it soon becomes apparent that the situation is somewhat more complex Botanists use Latin names to bring order into the vast diversity while everyday usage resorts to vernacular or popular names As practical as these vernacular names are it is not suggested that you should ask your greengrocer for a kilo gram of *Solanum tuberosum* or *Musa paradisiaca* subsp *sapientum*

their most important draw back is the fact that they vary widely not only from one language to another but also from country to country even from region to region within a large country More importantly vernacular names in any given language are usually only available for the plants growing locally or for plants of some special importance such as crops and vegetables medicinal plants or important garden plants For all other plants the Latin names used by botanists and other scientists have to be employed Such names often appear complicated or even awkward to the ears of those not accustomed to them *The African Book Publishing Record* ,1977 Thus Until Emilia Ilieva, Reuben Matheka, 2025-08-04 Thus Until A History of Egerton University is a thorough historical chronological and well researched account of Egerton University from a whites only college when it started in 1939 through to the expansion it has experienced over the years culminating in being a full university More than any other university in Kenya Egerton has a long and colourful history but like all the other universities it has suffered from the political economic and financial challenges of the time especially since the double intake of the 1990s Chapter One provides the required background to the study highlighting agricultural and educational policies and steering away from the Happy Valley hype so characteristic of the period The reader will learn about the Egerton family in Chapter Two and particularly about Lord Egerton himself and the colonial circumstances within which he lived The chapter dispels some of the popularly held myths about him Chapter Three deals with the beginnings of the college and the various structural and curriculum experiments tried out and the kind of enrolment and students it experimented with as an all white establishment The chapter ends with Africans beginning to agitate for change With great attention to detail the later chapters put the university in a broader local and international context thereby increasing its relevance to society A History of Egerton University though heavily footnoted and with a detailed bibliography is written in a simple easy flowing and accessible style Journal of East African Natural History ,2010 Traditional and Alternative Medicine Tuley De Silva, 2009 Proceedings of the International Workshop on Herbal Medicinal Plants and Traditional Herb Remedies held at Hanoi during 20-21 September 2007 organized by the Centre **African Books in Print** ,1978 *Ministry of Education Annual Report Kenya*. Ministry of Education, 1971 Chemical Education in the Seventies A. Kornhauser, C. N. R. Rao, D. J. Waddington, 2013-10-22 Chemical Education in the Seventies discusses the major innovations and programs in chemical education from various countries The book provides a discourse regarding the aspects of chemistry curriculum of primary secondary and college level which includes laboratory work examination reforms and training of teachers The text also discusses information regarding interactions between chemistry and society such as contributions made by the chemical industry for the education of students at the primary secondary and tertiary levels The selection will appeal to a wide variety of readers particularly to teachers of general science and chemistry in industrialized and developing countries **Journal of the Cactus and Succulent Society of America** ,2006 *Transformation of Higher Education and Training in Kenya to Secure Kenya's Development in the Knowledge Economy* Kenya.
