

# THREE FACTS ABOUT MINDSET IN LEARNING

## 1 YOU CAN PRIME YOUR BRAIN

*"You'll spend decades oblivious to babies, prams and child care centers... But when you or your partner become pregnant, you'll suddenly see them everywhere."*

Consciously or not, we make continuous decisions about how we direct our attention. Priming with questions, concepts or incentives helps focus and deepen our experiences.

**TIP FOR LEARNING DESIGNERS:**  
Prime a learning experience with open-ended scenarios and/or introductory videos.

## 2 INTEREST DRIVES LEARNING

*"Learning can only happen when a child is interested. If he's not interested, it's like throwing marshmallows at his head and calling it eating."*

~ Katrina Gutleben

It's not just children, interest drives our attention, makes us work harder, persist longer, and boosts our learning as a result.

**TIP FOR LEARNING DESIGNERS:**  
Adopt a marketing approach to learning and spell out the benefits/WIIFM for the learner.

## 3 A GROWTH MINDSET MATTERS

*"You're in charge of your mind. You can help it grow by using it in the right way."*

~ Carol Dweck

Stanford Uni's Carol Dweck defines a growth mindset as the belief that our talents and abilities can develop through effort and persistence. Dweck's team has documented the huge positive impact such a mindset has on learning.

**TIP FOR LEARNING DESIGNERS:**  
Show learners how they can learn to learn, and provide safe, supportive environments for them to fail and learn.
