

How to Make Elephant Toothpaste

A science-based lesson plan for parents and teachers

WHAT YOU'LL NEED:

- A clean 16-oz plastic soda bottle
- ½ cup of 6% hydrogen peroxide liquid (you can get this from a beauty supply store or hair salon; a 3% solution should also work, but the reaction will be smaller)
- 1 tablespoon (one packet) of dry yeast
- 3 tablespoons of warm water
- Liquid dishwashing soap
- Food coloring
- Small cup
- Safety goggles

WHAT TO DO:

1. Hydrogen peroxide can irritate skin and eyes, so put on those safety goggles! An adult should carefully pour the hydrogen peroxide into the bottle.
2. Add 8 drops of your favorite food coloring into the bottle.
3. Add about 1 tablespoon of liquid dish soap into the bottle and swish the bottle around a bit to mix it.
4. In a separate small cup, combine the warm water and the yeast together and mix for about 30 seconds.
5. Now the adventure starts! Pour the yeast water mixture into the bottle (a funnel helps here) and watch the foaminess begin!

WHAT TO TALK ABOUT:

Why do you think it's called "elephant toothpaste" as we're not actually making real toothpaste?

The foam looks a little bit like toothpaste coming out of a tube, doesn't it? And you can imagine that an elephant would need a lot of toothpaste to brush his teeth. That's why they call this explosion "elephant toothpaste."

What's happening?

Foam forms! This happens because each tiny foam bubble is filled with oxygen. The yeast helps remove the oxygen from the hydrogen peroxide. Because it does this very very fast, it creates a lot of bubbles!

Did you notice the bottle getting warm?

This experiment created an exothermic reaction. This means a chemical reaction that makes heat.

Elephant Toothpaste Lesson Plan

Rachel Sandford

Elephant Toothpaste Lesson Plan:

Teaching and Learning Online Franklin S. Allaire, Jennifer E. Killham, 2022-04-01 Science is unique among the disciplines since it is inherently hands on. However, the hands on nature of science instruction also makes it uniquely challenging when teaching in virtual environments. How do we as science teachers deliver high quality experiences in an online environment that leads to age grade level appropriate science content knowledge and literacy but also collaborative experiences in the inquiry process and the nature of science? The expansion of online environments for education poses logistical and pedagogical challenges for early childhood and elementary science teachers and early learners. Despite digital media becoming more available and ubiquitous and increases in online spaces for teaching and learning (Killham et al 2014, Wong et al 2018), PreK-12 teachers consistently report feeling underprepared or overwhelmed by online learning environments (Molnar et al 2021, Seaman et al 2018). This is coupled with persistent challenges related to elementary teachers' lack of confidence and low science teaching self-efficacy (Brigido, Borrachero, Bermejo, Gunning, Duran, Duran 2004). Ideal for undergraduate teacher candidates, graduate students, teacher educators, classroom teachers, parents, and administrators, this book addresses why and how teachers use online environments to teach science content and work with elementary students through a research-based foundation.

The Art of Appraisal Barbara D. Culp, 2017-09-13 The Art of Appraisal saves time and boosts performance with effective tools and a streamlined process. With a few detailed comments, an appraisal can correct weak habits, boost midlevel professionals, and launch excellent teachers into greatness. The Art of Appraisal allows administrators to reap the greatest benefits by creating clarity and efficiency in the process. First, a binary feedback structure ruled by four performance tiers is described. Then, ten key areas of teacher responsibility are defined. Each task is further parsed into four subcategories. Evaluations become faster and easier, and the feedback becomes exponentially more profound. Rich with real world examples and comments about different performance ratings, The Art of Appraisal clarifies and distills the evaluation process. Supplemental chapters are packed with practical comments that can be pasted into evaluations. This structured step-by-step system was developed by Dr. Culp, an educational professional with over forty years of experience. An invaluable tool for administrators and the teachers they evaluate, The Art of Appraisal allows a school's most effective tool to be used in the most efficient manner.

Relearning to Teach David Fawcett, 2019-09-16 Relearning to Teach challenges the seemingly complex teaching profession and the various initiatives, strategies, and ideas that are regularly suggested. It explores how teaching methods are used without a clear understanding of why, which leads to ineffective teaching that is believed to work but ultimately doesn't. Cutting through the clutter of conventional teacher guidance, David Fawcett tackles myths head-on, sharing the latest research and explaining how this will look translated to a classroom environment. The book breaks down the complexities of teaching into manageable chunks and offers practical advice on how to take charge of your own CPD to become a more reflective and successful practitioner. Focusing on what's most relevant and helpful to build

effective teaching practice and self improvement it raises key questions such as Is lesson planning just a box ticking exercise Why do students remember in lessons but forget in tests Is asking more questions beneficial Is feedback actually worth it Relearning to Teach is a must read for all teachers looking to pinpoint the why of teaching methods and to gain an understanding of the reasons why various pedagogies are used within the classroom El-Hi Textbooks & Serials in Print, 2005 ,2005 El-Hi Textbooks & Serials in Print, 2000 ,2000 **El-Hi Textbooks & Serials in Print, 2003** ,2003
