Postdigital Research Petar Jandrić, Alison MacKenzie, Jeremy Knox, 2023-06-28 This book explores genealogies and the challenges related to the concept of the postdigital the ambiguous nature of postdigital knowledges and the many faces of postdigital sensibilities The book answers three key questions What is postdigital knowledge What does it mean to do postdigital research What if anything is distinct from research conducted in other perspectives As such this book is a one stop publication for those interested in the theory of postdigital research Postdigital Research Genealogies Challenges and Future Perspectives is complemented by Constructing Postdigital Research Method and Emancipation also edited by Petar Jandrić Alison MacKenzie and Jeremy Knox which explores these questions in practice

Drug Topics , 1902 *American Farming Culture and the History of Technology* Joshua T. Brinkman, 2024-05-06 Presenting a history of agriculture in the American Corn Belt this book argues that modernization occurred not only for economic reasons but also because of how farmers use technology as a part of their identity and culture Histories of agriculture often fail to give agency to farmers in bringing about change and ignore how people embed technology with social meaning This book however shows how farmers use technology to express their identities in unspoken ways and provides a framework for bridging the current rural urban divide by presenting a fresh perspective on rural cultural practices Focusing on German and Jeffersonian farmers in the 18th century and Corn Belt producers in the 1920s the Cold War and the recent period of globalization this book traces how farmers formed their own versions of rural modernity Rural people use technology to contest urban modernity and debunk yokel stereotypes and women specifically employed technology to resist urban gender conceptions This book shows how this performance of rural identity through technological use impacts a variety of current policy issues and business interests surrounding contemporary agriculture from the controversy over genetically modified organisms and hog confinement facilities to the growth of wind energy and precision technologies Inspired by the author s own experience on his family s farm this book provides a novel and important approach to understanding how farmers culture has changed over time and why machinery is such a potent part of their identity This book will be of great interest to students and scholars of agricultural history technology and policy rural studies the history of science and technology and the history of farming culture in the USA

The story of secularization and religious disestablishment in American higher education is told from the standpoint of a lively community of professors students and administrators at the University of Michigan in the late nineteenth century This campus culture one of the most closely watched of its day sheds new light on the personal and cultural meanings of these momentous changes in American intellectual and public life Here we see how religion was not so much displaced or marginalized in the heyday of university reform as translated into new arenas of public service and scholarly pursuit The main characters in this story professors Calvin Thomas and Henry Carter Adams underwent profound religious crises of faith accompanied by major adjustments in their interpersonal relationships Together with students and administrators their lives constituted a communal biography of religious deconversion A close examination of these private and public worlds provides a more complete understanding of the dynamics behind new academic policies and intellectual innovations in a leading public university The non cognitive intersubjective gendered quasi religious shadings of academic modernism and early pragmatist philosophy in particular come to light in vivid ways As John Dewey later observed Michigan became an experimental laboratory for new meanings to unfold new acts to propose **Journal of the National Education Association** ,1929

The Chandler Automobile James H. Lackey,2018-05-03 Incorporated by veteran automakers in 1913 the Chandler Motor Car Company was initially successful in a fiercely competitive industry manufacturing an array of quality automobiles at a range of prices Yet by the late 1920s the company was floundering under mismanagement Producing four lines of cars with numerous body styles Chandler and its lower priced companion marque Cleveland were unable to find markets for their numerous models and seemed in effect to be competing against themselves Drawing on numerous automotive histories and two large private collections of memorabilia this exhaustive study of the Chandler Motor Car Company covers the automobiles in detail including all body styles and their changes during production The author chronicles the growth expansion and later troubles of Chandler and Cleveland providing fresh insight into the formative years of the auto industry and the personalities who made it go **The Journal of the National Education Association** National Education
