the United States government responsible for biomedical and public health research Founded in the late 1870s NIH has
produced extraordinary advances in the treatment of common and rare diseases and leads the world in biomedical research
It is a critical national resource that plays an important role in supporting national security The 310 acre Bethesda campus
supports some 20 000 employees and contractors and it contains more than 12 million square feet of facilities divided
amongst nearly 100 buildings including the largest dedicated research hospital in the world The Bethesda campus supports
some of the most sophisticated and groundbreaking biomedical research in the world However while some new state of the
art buildings have been constructed in recent years essential maintenance for many facilities and the campus overall has
been consistently deferred for many years The deteriorating condition of NIH s built environment is now putting its ability to
fulfill its mission at substantial risk Managing the NIH Bethesda Campus s Capital Assets for Success in a Highly Competitive
Global Biomedical Research Environment identifies the facilities in greatest need of repair on the Bethesda campus and
evaluates cost estimates to determine what investment is needed for the NIH to successfully accomplish its mission going
