Assessment in Geographical Education: An International Perspective Theresa Bourke, Reece Mills, Rod

Lane, 2022-02-27 In recent years there has been increased attention paid to the importance of assessment in Geographical Education the chosen subject for this book Assessment is an important tool for collecting information about student learning and for providing timely data to inform key stakeholders including students teachers parents and policymakers To be effective assessment needs to be valid reliable and fair Validity is about ensuring that we assess what we claim we are assessing Reliability is about measuring performance and understanding in a consistent way Without validity and reliability assessment is unlikely to provide equitable opportunities for students to demonstrate what they know and can do As geography educators it is therefore important that we identify the core concepts and skills in geography that we want students to master We need a clear understanding of what the progression of learning looks like for each concept and skill so we can develop fit for purpose assessments that track and improve student learning While there is a substantial literature on evidence based assessment in secondary school contexts research exploring best practice assessment in geography is rare This is a concern given the distinctive nature of geography and the important role of assessment in the learning process This scholarly collection seeks to address this issue by connecting research in educational assessment with the domain of geography The chapters are written by leading researchers in Geographical Education from across the globe These chapters provide examples of innovation through the collective voices of geography teacher educator scholars from across Australia USA South Korea Germany Switzerland and Singapore What unifies the work in this book is that each chapter focuses on a key feature of the discipline of geography providing scholarly examples of evidence based practices for assessing student s knowledge and skills *Resources in Education* ,1991 Serves as an index to Eric reports microform An American Geography: One Family's Journey Jill P May, 2016-07-26 This one family s journey across the unsettled West demonstrates how its understandings of family identity and selfhood were fostered Beginning in the late 1880s each member s perspective of the past and the future evolved as they moved from the Midwest to the West and finally settled in various regions of the United States This chronicle of family movement and cultural assimilation contains an ideology of America that often frames stories told about family and history Dictionary of Geography, Descriptive, Physical, Statistical, and Historical, Forming a Complete General Gazetteer of the World ,1853 **Monthly Index of Russian Accessions** Library of Congress. Processing Department, 1955 **Dictionary of geography** Alexander Keith Johnston, 1850 *States and the Making of Others* Jeanne Bouyat, Amandine Le Bellec, Lucas Puygrenier, 2024-06-17 This volume offers a unique interdisciplinary and comparative perspective on contemporary processes of othering by state institutions in relation to dynamics of racism xenophobia sexism homo transphobia as well as ethnic and class based discriminations It focuses on eight original case studies empirically

grounded in various domains of the social state in Southern African and Western European contexts the education and health care systems the regulation of work and of procreation rights and institutions in charge of granting asylum The authors provide key insights on how states produce Others and on how othering contributes in turn to the process of state formation and the politicization of public action *The School World* ,1906 *CRREL Technical Publications, 1950-1975* Cold Regions Research and Engineering Laboratory (U.S.),1992
