Barbara Molony, Jennifer Nelson

History Paper 1 September 2014 Memorandum For Grade 1:

Governomics Ian McAuley, Miriam Lyons, 2015-05-01 People have good reason to demand decent public education and a well funded health system to yearn for an economy that doesn't trash the environment or for a smaller gap between rich and poor Almost without exception sound economics is on their side We've grown used to public debates that pit people and the planet against an abstract distorted image of the economy but it doesn't have to be this way Governomics shows that an emaciated state is bad for business and that standing up for government means standing up for a public sector that truly serves the public Everybody knows governments are wasteful incompetent and a drag on the economy But if you're not sure that's true read this book Ross Gittins Sydney Morning Herald and The Age Governomics shows that a market economy can only work when sustained by a strong and active public sector It will inject some much needed economic sanity into conversations on the role of government in Australia John Quiggin Australian Research Council Laureate Fellow University of Queensland Booze, Cigarettes, and Constitutional Dust-Ups Ryan Manucha, 2022-10-15 Gerard Comeau a retiree living in rural New Brunswick never thought his booze run would turn him into a Canadian hero In 2012 after Comeau had driven to Quebec to purchase cheaper beer and crossed back into his home province police officers participating in a low stakes sting operation tailed and detained him confiscated his haul and levied a fine of less than 300 Countries routinely engage in trade wars and erect barriers to protect domestic industries from foreign competition Comeau however was detained by the full force of the law for engaging in commerce with a Canadian business on the other side of a domestic border With Comeau's story as its starting point Booze Cigarettes and Constitutional Dust Ups tells the fascinating tale of Canadian interprovincial trade Ryan Manucha examines the historical political and legal forces that gave rise to the regulation of interprovincial commerce in Canada the trade offs that come with liberalized domestic free trade and Canada's enduring pursuit of economic union The pandemic laid bare the vulnerability of global supply chains the fickleness of foreign trading partners and the surprising slipperiness of domestic trade In a global climate of increasingly isolationist geopolitics the history and possibility of Canada's economic union quirks and all deserve careful attention Inequality and the 1% Danny Dorling, 2019-09-17 Since the great recession hit in 2008 the 1% has only grown richer while the rest find life increasingly tough The gap between the haves and the have nots has turned into a chasm While the rich have found new ways of protecting their wealth everyone else has suffered the penalties of austerity But inequality is more than just economics Being born outside the 1% has a dramatic impact on a person's potential reducing life expectancy limiting education and work prospects and even affecting mental health What is to be done In Inequality and the 1% leading social thinker Danny Dorling lays bare the extent and true cost of the division in our society and asks what have the superrich ever done for us He shows that inequality is the greatest threat we face and why we must urgently redress the balance **Withdrawal** Gregory A. Daddis, 2017-09-01 A better war Over the last two decades this term has become synonymous with US strategy during the

Vietnam War's final years The narrative is enticingly simple appealing to many audiences After the disastrous results of the 1968 Tet offensive in which Hanoi's forces demonstrated the failures of American strategy popular history tells of a new American military commander who emerged in South Vietnam and with inspired leadership and a new approach turned around a long stalemated conflict In fact so successful was General Creighton Abrams in commanding US forces that according to the better war myth the United States had actually achieved victory by mid 1970 A new general with a new strategy had delivered only to see his victory abandoned by weak kneed politicians in Washington DC who turned their backs on the US armed forces and their South Vietnamese allies In a bold new interpretation of America's final years in Vietnam acclaimed historian Gregory A Daddis disproves these longstanding myths Withdrawal is a groundbreaking reassessment that tells a far different story of the Vietnam War Daddis convincingly argues that the entire US effort in South Vietnam was incapable of reversing the downward trends of a complicated Vietnamese conflict that by 1968 had turned into a political military stalemate Despite a new articulation of strategy Abrams's approach could not materially alter a war no longer vital to US national security or global dominance Once the Nixon White House made the political decision to withdraw from Southeast Asia Abrams's military strategy was unable to change either the course or outcome of a decades long Vietnamese civil war In a riveting sequel to his celebrated Westmoreland's War Daddis demonstrates he is one of the nation's leading scholars on the Vietnam War Withdrawal will be a standard work for years to come

Women's Activism and "Second Wave" Feminism Barbara Molony, Jennifer Nelson, 2017-02-09 This book is open access and available on www.bloomsburycollections.com It is funded by Knowledge Unlatched Women's Activism and Second Wave Feminism situates late 20th century feminisms within a global framework of women's activism Its chapters written by leading international scholars demonstrate how issues of heterogeneity transnationalism and intersectionality have transformed understandings of historical feminism It is no longer possible to imagine that feminism has ever fostered an unproblematic sisterhood among women blind to race ethnicity class sexuality nationality and citizenship status The chapters in this collection modify the wave metaphor in some cases and in others re-periodize it By studying individual movements they collectively address several themes that advance our understandings of the history of feminism such as the rejection of hegemonic feminism by marginalized feminist groups transnational linkages among women's organizations transnational flows of ideas and transnational migration By analyzing practical activism the chapters in this volume produce new ways of theorizing feminism and new historical perspectives about the activist locations from which feminist politics emerged Including histories of feminisms in the United States Canada South Africa India France Russia Japan Korea Poland and Chile Women's Activism and Second Wave Feminism provides a truly global re-appraisal of women's movements in the late 20th century

The Irish Civil War and Society G. Foster, 2015-02-18 The Irish Civil War and Society sheds new light on the social currents shaping the Irish Civil War from the politics of respectability behind animosities and discourses to the intersection of social

conflicts with political violence to the social dimensions of the war's messy aftermath *American Military Communities in West Germany* John W. Lemza, 2016-05-13 On April 28 1946 a small group of American wives and children arrived at the port of Bremerhaven West Germany the first of thousands of military family members to make the trans Atlantic journey They were the basis of a network of military communities Little Americas that would spread across the postwar German landscape During a 45 year period which included some of the Cold War's tensest moments their presence confirmed America's resolve to maintain Western democracy in the face of the Soviet threat Drawing on archival sources and personal narratives this book explores these enclaves of Americanism from the U S government's perspective to the grassroots view of those who made their homes in Cold War Europe These families faced many challenges in balancing their military missions with their daily lives during a period of dynamic global change The author describes interaction in American communities that were sometimes separated sometimes connected with their German neighbors Writing British Muslims Rehana

Ahmed, 2024-06-04 The Rushdie affair September 11 2001 and 7/7 pushed British Muslims into the forefront of increasingly fraught debate about multiculturalism Stereotyping images have proliferated reducing a heterogeneous minority group to a series of media soundbites This book examines contemporary literary representations of Muslims by British writers of South Asian Muslim descent including Salman Rushdie Hanif Kureishi Monica Ali and Nadeem Aslam to explore the contribution they make to urgent questions about multicultural politics and the place of Muslims within Britain By focusing on class and its intersection with faith race and gender in identity and community formation it challenges the dichotomy of secular freedom versus religious oppression that constrains thinking about British Muslims and offers a more nuanced perspective on multicultural debates and controversies *Writing British Muslims* will appeal to academics and postgraduate and final year undergraduate students in the fields of postcolonial studies English studies and cultural studies **Oil Culture** Ross

Barrett, Daniel Worden, 2014-10-15 In the 150 years since the birth of the petroleum industry oil has saturated our culture fueling our cars and wars our economy and policies But just as thoroughly culture saturates oil So what exactly is oil culture This book pursues an answer through petroculturalism's history in literature film fine art wartime propaganda and museum displays Investigating cultural discourses that have taken shape around oil these essays compose the first sustained attempt to understand how petroleum has suffused the Western imagination The contributors to this volume examine the oil culture nexus beginning with the whale oil culture it replaced and analyzing literature and films such as *Giant* *Sundown* Bernardo Bertolucci's *La Via del Petrolio* and Ben Okri's *What the Tapster Saw* corporate art museum installations and contemporary photography and in apocalyptic visions of environmental disaster and science fiction By considering oil as both a natural resource and a trope the authors show how oil's dominance is part of culture rather than an economic or physical necessity *Oil Culture* sees beyond oil capitalism to alternative modes of energy production and consumption Contributors Georgiana Banita U of Bamberg Frederick Buell Queens College Gerry Canavan Marquette U Melanie Doherty Wesleyan College Sarah

Varieties of Austerity Heather Whiteside,Stephen McBride,Bryan Evans,2021-05-03 Austerity is not always one size fits all it can be a flexible class based strategy taking several forms depending on the political economic forces and institutional characteristics present This important book identifies continuity and variety in crisis driven austerity restructuring across Canada Denmark Ireland and Spain In their analysis the authors focus on several components of austerity including fiscal and monetary policy budget narratives public sector reform labor market flexibilization and resistance In so doing they uncover how austerity can be categorized into different dynamic types and expose the economic social and political implications of the varieties of austerity **Behavioral Evolution and Integrative Levels** G. Greenberg,E.

Tobach,2014-05-22 First published in 1984 In this collection of essays Schneirla is identified as a scientist and citizen unafraid to hold and present unpopular ideas Schneirla had always been opposed to the hereditarian views that allowed for the politicalization of psychology and spoke out early against the idea of the genetic basis of behavior It is fitting that his ideas which still form the nexus of the major theoretical criticism of classical ethology now can be seen to stand in opposition to the hereditarian views of socio biology **The Political Economy of Dissent** Peter Blunt,Cecilia Escobar,Vlassis Missos,2025-10-22 In 2020 Noam Chomsky asserted that the time to panic about the existential threats posed by nuclear war global warming and the stifling of informed debate in supposedly open and democratic societies was upon us and that it was

the duty of concerned citizens to act accordingly Hastened by the lingering aftermath of the 2008 financial crisis the COVID 19 pandemic the proxy war in Ukraine the decline of US economic hegemony and increasing hostility between the US and China he concluded in early 2023 that unless the US could be persuaded to cooperate with its declared adversaries and capitalism could be overthrown or defanged there was little hope for survival The authors of this book argue that achieving these ends will depend greatly on effective individual and collective worldwide dissent The book analyses and exemplifies dissent in the main domains of institutionalised capitalist control and the manufacture of uninformed consent namely political economy education the media and IT work and trade unions the commons and communities and culture And thereby gives voice and hope to the downtrodden and marginalised including indigenous peoples and those of the global south It provides an uplifting counter to the otherwise seemingly overwhelming expression of uninformed consent one that will inspire by example and be an antidote to the fear and defeatism instilled by capitalist intransigence indoctrination and control The book is addressed to students scholars and researchers primarily but its breadth of coverage authenticity and plain writing style will appeal to activists community organisers and concerned citizens both in industrialised countries and the global south

Facing Down the Soviet Union Kristan Stoddart, 2014-10-16 *Facing Down the Soviet Union* reveals for the first time the historic deliberations regarding the Chevaline upgrade to Britain's Polaris force the decisions to procure the Trident C 4 and then D 5 system from the Americans in 1980 and 1982 It also details the decision to base Ground Launched Cruise Missiles in the UK in 1983 □□□□□□□□ □□□•□□, 2024-12-25 *Entrepreneurship and Global Cities* Nikolai Mouraviev, Nada K. Kakabadse, 2019-05-29 Global cities with a largely cosmopolitan environment such as Auckland Berlin Dubai London New York Shanghai or Singapore are successfully developing and attracting entrepreneurs from all over the world This book elucidates the policy approaches related to the formation of the cosmopolitan environment that supports entrepreneurship in large urban areas The book's core theme is the relationship between cosmopolitanism and entrepreneurship with the latter viewed as a key driver of economic growth sustainability and prosperity The book argues that successful entrepreneurship rests on the two pillars of the cosmopolitan environment diversity and the creation of business opportunities In contrast to globalisation's standardised solutions in policy commerce banking and social issues cosmopolitanism allows individualised value and solutions whereby actors entrepreneurs businesses families interest groups governments non governmental organisations and virtual communities enjoy diversity as a norm The book pays special attention to under researched topics such as threats to sustainability in cosmopolitan cities why cosmopolitan cities attract immigrants with a highly independent mindset the impact of religious norms on female and male entrepreneurs varying experiences of local and expatriate entrepreneurs and the differences in doing business by female entrepreneurs stemming from their nationalities and residence status The book offers conceptual insights into the enablers of entrepreneurship in cosmopolitan cities and urban governance complemented by case studies based on fieldwork in Dubai Hamburg Istanbul Karachi Kyiv London Moscow and

Tel Aviv The book will appeal to those who study or teach cosmopolitanism globalisation or urban development concepts and those professionals who are considering the possibility of doing business or working as an expatriate in a cosmopolitan city

The Closing of the Liberal Mind Kim R. Holmes, 2017-12-12 A former U S Assistant Secretary of State and currently Acting Senior Vice President for Research at The Heritage Foundation Kim R Holmes surveys the state of liberalism in America today and finds that it is becoming its opposite illiberalism abandoning the precepts of open mindedness and respect for individual rights liberties and the rule of law upon which the country was founded and becoming instead an intolerant rigidly dogmatic ideology that abhors dissent and stifles free speech Tracing the new illiberalism historically to the radical Enlightenment a movement that rejected the classic liberal ideas of the moderate Enlightenment that were prominent in the American Founding Holmes argues that today s liberalism has forsaken its American roots incorporating instead the authoritarian anti clerical and anti capitalist prejudices of the radical and largely European Left The result is a closing of the American liberal mind Where once freedom of speech and expression were sacrosanct today liberalism employs speech codes trigger warnings boycotts and shaming rituals to stifle freedom of thought expression and action It is no longer appropriate to call it liberalism at all but illiberalism a set of ideas in politics government and popular culture that increasingly reflects authoritarian and even anti democratic values and which is devising new strategies of exclusiveness to eliminate certain ideas and people from the political process Although illiberalism has always been a temptation for American liberals lurking in the radical fringes of the Left it is today the dominant ideology of progressive liberal circles This makes it a new danger not only to the once venerable tradition of liberalism but to the American nation itself which needs a viable liberal tradition that pursues social and economic equality while respecting individual liberties

Injustice Danny Dorling, 2015-06-03 In the five years since the first edition of *Injustice* there have been devastating increases in poverty hunger and destitution in the UK Globally the richest 1% have never held a greater share of world wealth while the share of most of the other 99% has fallen in the last five years with more and more people in debt especially the young Economic inequalities will persist and continue to grow for as long as we tolerate the injustices which underpin them This fully rewritten and updated edition revisits Dorling s claim that Beveridge s five social evils are being replaced by five new tenets of injustice elitism is efficient exclusion is necessary prejudice is natural greed is good and despair is inevitable By showing these beliefs are unfounded Dorling offers hope of a more equal society We are living in the most remarkable and dangerous times With every year that passes it is more evident that *Injustice* is essential reading for anyone concerned with social justice and wants to do something about it
