Human Cardiovascular System Study Guide:

Circulatory System (Speedy Study Guides) Speedy Publishing, 2014-07-03 The circulatory system consists of the veins and arteries throughout the body through which blood flows to and from the heart. Owning a reference guide to the circulatory system is a valuable tool in any first aid kit. A reference guide will allow the owner to immediately recognize the severity of an injury based entirely on where the injury occurs and by the amount of blood flowing from the wound. This knowledge will determine how a person treats the injury. Circulatory System Of Humans Speedy Study Guides Speedy Publishing, 2014-07-08 Learning everything that there is to know about the Human Circulatory System can be very beneficial especially for biology students and this pamphlet provides that with its detailed diagrams. Key concepts are defined on the first page of each chapter in the workbook. Learning exercises for each chapter include short answer, matching and diagrams to label and color. Self-quizzes allow you to measure your progress and understanding. Fun and Games features end each chapter with a variety of engaging puzzles covering words and concepts.
