

STUDYING PEDIGREES ACTIVELY

Genealogical research is gathering or creating a fact that depicts a family history or the transmission of a specific trait. They have been developing for years and have been important tools in identifying patterns of inheritance of specific traits. Pedigrees can depict inheritance of specific characteristics without involving a complex debate on how phenotypic traits occur in individuals who genetically identical individuals do not or have features. They are also used to help people in understanding pedigree inheritance patterns and to help identify the inheritance of a specific trait. Below are some examples of pedigree charts.
