*Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office, 1959 Includes Part 1 Number 2 Books and Pamphlets Including Serials and Contributions to Periodicals July December     *International Harvester Tractors* Randy Leffingwell, 1999 If you enjoyed Leffingwell's best selling *The American Farm Tractor* this stunning volume is an absolute must read *International Harvester Tractors* beautifully chronicles the history of IH tractors from the very first tractor through the IH ag division's merger with Case in 1985 In addition to hundreds of nostalgic Farmall and IH photographs Leffingwell serves up an unprecedented collection of rare and unusual machines The machines Leffingwell found in his travels across the US will surprise and delight even the hard core IH fan Exceptionally well produced in classic Leffingwell style Recommended     **International 826 Tractor Technical Service Repair Shop Manual** , 1959-01-15     **Handbook of Energy Management in Agriculture** Amitava Rakshit, Asim Biswas, Deepranjan Sarkar, Vijay Singh Meena, Rahul Datta, 2023-05-15 This handbook provides a holistic overview of different aspects of energy management in agriculture with an orientation to address the sustainable development goals It covers possible applications not only from a technical point of view but also from economic financial social regulatory and political viewpoints Agriculture is one of the most imperative sectors that contribute to the economy across different agro ecologies of the universe with energy inputs in each stage of production from making and applying chemicals to fueling tractors that lay seeds and harvest crops to electricity for animal housing facilities The majority of agricultural research has focused on the use of input production and productivity whereas rational energy budgeting and use remain an overlooked and likely underestimated segment ignored so far while formulating agro ecosystem framework Energy management study is a new frontier of agriculture and is challenging due to complex enterprises spatial temporal variability exposure to pollution and the predominant effect of the anthropogenic factor on ecology and environment But it is worth taking the challenge considering the important prerequisite role of energy for sustainable development which has been evidenced from increasing research in recent times Of recent origin there are critical in depth studies around the globe assessing the capture and flow of energy in the ecosystem which will help to develop a conceptual framework to incorporate this vital resource in the agriculture management template This book is a state of the art resource for a broad group of readers including a diversity of stakeholders and professionals in universities public energy institutions farmers and farming industry public health and other relevant institutions and the broader public as well     *Special Features of the UN Model Convention* Anna Binder, Viktoria Wöhrer, 2019-10-01 Detailed research on the UN Model Convention's unique features The UN Model Convention has a significant influence on international tax treaty practice and is especially used by emerging and developing countries as a starting point for treaty negotiations Driven by the aim to achieve consistency in the international tax treaty practice the structure and content is to a large extent similar in the UN Model and the OECD Model However whereas the OECD has historically focused its efforts on issues mainly relevant for

developed countries the UN Tax Committee has continuously attempted to specifically take into account tax treaty policies for developing countries when drafting and amending the UN Model Convention Compared to the OECD Model Convention the UN Model Convention aims at giving more weight to the source principle Popular examples are the PE definition in the UN Model which provides for a lower threshold than Article 5 of the OECD Model or Article 12A on Fees for Technical Services which has been introduced with the latest amendment of the UN Model Convention 2017 and allows for a withholding tax to be levied on payments to non residents when the payer of the fee is a resident of that contracting State irrespective of where the services are provided Interestingly in the discussions of the tax challenges arising from the digitalization of the economy the OECD and the G20 are also exploring options to allocate more taxing rights to the jurisdiction of the customer and or user i e the market jurisdictions As this has traditionally been the focus of the UN Model Convention its unique features and developing countries practices could be taken into account when exploring new nexus rules that are not constrained by the physical presence requirement This book contains the master s theses of the full time LL M program 2018 2019 for which Special Features of the UN Model Convention has been chosen as the general topic With this book the authors and editors do not aim at discussing each article of the UN Model Convention but rather focus on the unique features of the UN Model Convention which are explored in detail This is supplemented with an evaluation of the function and relevance of the UN Tax Committee in the international tax policy discussion and with an analysis of the influences of the OECD s BEPS project on the UN Model
