Technologies and Applications Costin Badica, Ngoc Thanh Nguyen, Marius Brezovan, 2013-09-03 This book constitutes the thoroughly refereed conference proceedings of the 5th International Conference on Computational Collective Intelligence ICCCI 2013 held in Craiova Romania in September 2013 The 72 revised full papers presented were carefully selected from numerous submissions Conference papers are organized in 16 technical sessions covering the following topics intelligent e learning classification and clustering methods web intelligence and interaction agents and multi agent systems social networks intelligent knowledge management language processing systems modeling and optimization techniques evolutionary computation intelligent and group decision making swarm intelligence data mining techniques and applications cooperative problem solving collective intelligence for text mining and innovation collective intelligence for social understanding and mining and soft methods in collective intelligence

Semantic Methods for Knowledge Management and Communication Radosław Katarzyniak Katarzyniak, Tzu-Fu Chiu, Chao-Fu Hong, Ngoc-Thanh Nguyen, 2011-08-04 The book consists of 31 chapters in which the authors deal with multiple aspects of modeling utilization and implementation of semantic methods for knowledge management and communication in the context of human centered computing It is assumed that the modern human centered computing requires the intensive application of these methods as well as effective integration with multiple techniques of computational collective intelligence The book is organized in four parts devoted to the presentation of utilization of knowledge processing in agent and multiagent systems application of computational collective intelligence to knowledge management models for collectives of intelligent agents and models and environments tailored directly to human centered computing All chapters in the book discuss theoretical and practical issues related to various models and aspects of computational techniques for semantic methods which are currently studied and developed in many academic and industry centers over the world The editors hope that the book can be useful for graduate and PhD

students of computer science as well as for mature academics researchers and practitioners interested in developing of modern methods for representation processing and distribution of knowledge in the context of human centered computing and by means of computer based information systems It is the hope of the editors that readers of this volume can find in all chosen chapters many inspiring ideas and influential practical examples as well as use them in their current and future work

Advances in Computers Atif Memon,2012-04-24 Since its first volume in 1960 *Advances in Computers* has presented detailed coverage of innovations in computer hardware software theory design and applications It has also provided contributors with a medium in which they can explore their subjects in greater depth and breadth than journal articles usually allow As a result many articles have become standard references that continue to be of significant lasting value in this rapidly expanding field In depth surveys and tutorials on new computer technology Well known authors and researchers in the field Extensive bibliographies with most chapters Many of the volumes are devoted to single themes or subfields of computer science

Innovation and Technology Nikos Vernardakis,2016-01-22 Innovation has revolutionized the world economy yet it remains often misunderstood This textbook seeks to elucidate the nature and impact of innovation for both undergraduate and graduate students Innovation and Technology examines the impact of innovation on both economic theory and the real world It addresses the topic at the level of policy and also drills down to provide analysis of firms This book moves beyond the plethora of specialized studies on the subject and formulates a unified and comprehensive approach encompassing the topic s huge breadth and scope Issues such as innovation knowledge incentives information and regulation are featured Designed for MBA Economics and Business students this textbook will be useful to those interested in innovation entrepreneurship and the economics of technology

Consumers Index to Product Evaluations and Information Sources ,1997

China World Bank,1993 The Republic of Korea s industrial policy has directed that nation s economy through nearly three decades of spectacular growth But the authors of this paper maintain that this policy is showing signs of being outmoded The time has come the authors argue for the Korean government to stop managing the economy s structural development and to redefine the responsibilities of business and government Under this proposed compact the allocation of resources would shift from the government to the private industrial and financial sectors The transformation of the government bureaucracy from an ad hoc policy role to one of a transparent and predictable regulator is a key to the success of this undertaking These new directions would present the government with enormous challenges Greater competitive discipline and regulatory oversight would be required While dealing with the complexities of the transition the government would have to maintain macroeconomic stability and the momentum of savings and investment For comparison the study examines the industrial economies of France Germany Japan and the United States which underwent similar shifts
