Writing Assignment: College Essay/Personal Statement

The next essay you are about to begin essentially serves two functions as part of the course curriculum. It's a pragmatic endeavor in the hope that many of you—especially seniors—will use the essay for one or more of your college applications. On the other hand, it is also another attempt at writing a personal narrative essay as we've thoroughly discussed the stylistic features and purposes of this type of writing. There are a variety of options for this assignment, all of which have validity as part of the unit, regardless of whether or not you submit your essay to a college.

This type of essay is perhaps the most daunting; you are asked to create an honest, vivid approximation of yourself on paper in a manner that engages your reader and provides a deeper understanding of you as an individual. You will read and hear many examples of other students' attempts at personal statements. We will also survey tips, advice, and opinions from guidance and admission counselors, and others familiar with the nuances of the college admissions process. You will have ample opportunity to reflect on yourself as a person, and tap into creative thoughts to find the right voice for your audience.

Below is a list of choices for writing the college essay in this class. I've divided the prompts into categories in the hope that you will address a prompt that fits the school(s) where you expect to apply. There is an alternative essay for those who have already written their college essay, those applying solely to a California State University, community college or junior college, as well as anyone who is unsure about which other prompt to select.

This essay should be between 500-600 words, depending on the prompt you choose. The essay must be typed in 12-point font and double-spaced.
