There are three Domains of Development and these are as follows: Physical Development, Cognitive Development, and Psychosocial Development. The three major domains can also be called as aspects of development. Nature and nurture can both be major influences for human development.

2. Typical major developments in periods of human development.

Psychosocial Development: Fetus responds to mother's voice and develops a preference for it.

Infancy and Toddlerhood (birth to age 3)

Physical Development: The brain grows in complexity and is highly sensitive to environmental influence; Physical growth and development of motor skills are rapid.

Psychosocial Development: Self-awareness develops; Shift from dependence toward autonomy occurs.
