The purpose of this document is to guide the reader regarding the current state of the FZ1200R17KF4 + FZ1200R16KF4 IGBT which are found in F35w and some shops selling this product in EUFEC in a form of light manufacturer sheet is the 1990's technology of Infineon Technologies. It is very popular and has been used in frequency inverters. In 2005, Infineon is integrated to Infineon. It is very hard to find this product nowadays as it is old now and there are many light of this type so it is not a bad idea. After two years working on this product, this is what I found out.

The picture of the module is a good example of a good one, but we bought it from a shop and it is a very old one and working fine on frequency converters. We found that it is a good one and it is a good one.
