Virtual Labs provide students with a hosted emulation environment for working in labs designed for use with the Microsoft Official Academic Course curriculum. These labs are the hands on software experience that is critical for students to build the skills and knowledge they need for effective work with Windows Server 2008 on the job. Give them real experience with real software freely exploring the full environment instead of the prescribed task flow of simulations. MOAC Virtual labs simplify the implementation of your new network administration program by eliminating lab set up. All lab exercises are hosted on Microsoft servers. Only a browser and internet connection are required for their use. This will save your institution the expense of upgrading the hardware and the software in your lab. You will no longer need dedicated hard drives for each student. Students may log into their virtual lab from any machine. Distance learning is now a viable option for your IT Professional program.
