Providence and Narrative in the Theology of John Chrysostom Robert Edwards, 2022-12-15 This book is the first major study of providence in the thought of John Chrysostom a popular preacher in Syrian Antioch and later archbishop of Constantinople ca 350 to 407 CE While Chrysostom is often considered a moralist and exegete this study explores how his theology of providence profoundly affected his larger ethical and exegetical thought Robert Edwards argues that Chrysostom considers biblical narratives as vehicles of a doctrine of providence in which God is above all loving towards humankind Narratives of God s providence thus function as sources of consolation for Chrysostom s suffering audiences and may even lead them now amid suffering to the resurrection life the life of the angels In the course of surveying Chrysostom s theology of providence and his use of scriptural narratives for consolation Edwards also positions Chrysostom s theology and exegesis which often defy categorization within the preacher s immediate Antiochene and Nicene contexts

Fresh Perspectives on St John Chrysostom as an Exegete, 2025-01-27 This volume delves into the multifaceted world of Chrysostom shedding light on his pivotal role as an exegete It explores his cultural background his preferred themes and his enduring influence It introduces the reader to Chrysostom s exegetical workshop his predecessors and successors in biblical interpretation and offers a fresh assessment of his connection to Greco Roman and Syriac contexts

Augustine's Cyprian Matthew Alan Gaumer, 2016-03-17 In Augustine s Cyprian Matthew Gaumer retraces how Augustine of Hippo devised the ultimate strategy to suppress Donatist Christianity an indigenous form of the religion in ancient North Africa Spanning nearly forty years Augustine s entire clerical career was spent combating the Donatists and seeking the dominance of the Catholic Church in North Africa Through a variety of approaches Augustine evolved a method to successfully outlaw and deconstruct the Donatist Church s organisation

This hinged on concerted preaching tract writing integrating Roman imperial authorities and critically by denying the Donatists exclusive claim to Cyprian of Carthage. Re appropriation of Cyprian's authority required Augustine and his allies to re write history and pose positions contrary to Cyprian's. In the end Cyprian was the Donatists no longer. Augustine and Postmodernism John D. Caputo, Michael J. Scanlon, 2005-03-10 Scanlon and Mark Vessey Indiana Series in the Philosophy of Religion Merold Westphal general editor *St. Augustine's Interpretation of the Psalms of Ascent* Gerard McLarney, 2014-10 Recent research has explored how past interpretation can help contextualize current interpretation as well as provide a more colorful and theologically meaningful understanding of scripture. In St Augustine's Interpretation of the Psalms of Ascent Gerald McLarney examines Augustine of Hippo's d 430 interpretation of the ascent motif in sermons on Psalms 119 133. He looks at the delivery transmission and broader context of the sermons as well as examining the sermons as they stand.

Rhetoric and Tradition Hagit Amirav, 2003 In addition to the classical literary corpus Chrysostom like many other educated Christians relied upon the Scriptures as an equally important source. Focusing on the use which writers made of the Scriptures in order to convey their moral social and theological ideas this study is unique in that it offers a detailed analysis of patristic rhetoric against the background of the scriptural corpus. A close examination of a wide range of Greek exegetical and homiletic writings in particularly the newly available edition of the Greek Catena reveals that the Fathers wrote and preached in accordance with well established literary conventions. Chrysostom his Antiochene colleagues and his Alexandrian rivals approached the biblical text with a full appreciation of the methods formulated by their predecessors. The evidence of the exegetes meticulous and calculated use of the biblical text contradicts the present scholarly tendency to describe the homiletic literary output as spontaneous and free flowing. For the first time Chrysostom is examined not in an isolated way but in the wider context of Antiochene and Alexandrian exegesis and their respective theological ideologies. When studying the wider aspects of the Fathers methods of interpretation it becomes clear that the study of ideas cannot be separated from the study of their modes of expression. *And Taking Bread ...* Mahlon H. Smith, 1978 **Contours of a Biblical**

Reception Theory Víctor Manuel Morales Vásquez, 2012 Originally presented as the author's thesis Ph D University of Chester University of Liverpool 2007 **Lectures de Jean de la Croix** Max Huot de Longchamp, 1981 **Augustine** Frederick Van Fleteren, Joseph C. Schnaubelt, 2001 This book contains a group of essays by internationally recognized scholars on Augustine's hermeneutical theory and practice of biblical exegesis attempting to understand Augustine 1 against his own intellectual background 2 within his own works and 3 in relation to traditional and contemporary discussions of biblical hermeneutics and exegesis. In the discussion of Augustine's theological works and pastoral sermons consideration is given both to the science of hermeneutics and the art of exegesis. Ancient rhetoric ancient philosophy and earlier Christian exegetes are studied as they relate to Augustine as is Augustine's own synthesis. Augustine Biblical Exegete sheds light on the continuity between the exegesis of earlier ages and our own. **L'exégèse de Théodoret de Cyr** Jean-Noël Guinot, 1995

Avec Théodoret de Cyr l'exégèse grecque brille au VI^e siècle d'un dernier clat. Après lui s'ouvre l'ère des catéchistes et des compilateurs. Héritier d'une double tradition celle d'Antioche et celle d'Alexandrie, Théodoret opère entre l'attachement de ses maîtres antiochiens à la lettre et l'histoire et celui des Alexandrins au sens spirituel et l'allégorie une synthèse vigoureuse et équilibrée qui lui vaudra d'être tenu pour l'un des plus grands exégètes de l'Église patristique. Aussi l'étude présente ici s'attache-t-elle en premier lieu à l'analyse de sa méthode exégétique. Elle accorde également une grande attention à la recherche des sources, celles qui lui permettent d'opérer une lecture critique du texte de la Septante en usage dans la région d'Antioche et celles qui lui font connaître directement ou indirectement les interprétations de ses devanciers. Elle souligne enfin fortement la dimension polémique et doctrinale de ses commentaires car il y a là comme une clef de lecture et peut-être la justification dernière d'une entreprise exégétique aussi vaste. Directement marquée depuis le concile de Chalcédoine 451 au débat christologique qui oppose Cyrille puis ses successeurs Nestorius et aux orientaux, Théodoret met en effet son exégèse au service d'une cause, celle des Antiochiens dont l'écriture liturgique la christologie dyophysite et garantit l'orthodoxie. Ainsi donc loin d'être tranquille au combat qu'il mène par ses traités polémiques ou dogmatiques, son entreprise exégétique en est sa manière de piécer l'essentielle et le fondement véritable.

Gaining and Losing Imperial Favour in Late Antiquity Kamil Cyprian Choda, Maurits Sterk de Leeuw, Fabian Schulz, 2019-10-07. The collective volume *Gaining and Losing Imperial Favour in Late Antiquity: Representation and Reality* edited by Kamil Cyprian Choda, Maurits Sterk de Leeuw and Fabian Schulz offers new insights into the political culture of the Roman Empire in the 4th and 5th centuries AD where the emperor's favour was paramount. The articles examine how people gained, maintained or lost imperial favour. The contributors approach this theme by studying processes of interpersonal influence and competition through the lens of modern sociological models. Taking into account both political reality and literary representation, this volume will have much to offer students of late antique history and/or literature as well as those interested in the politics of pre-modern monarchical states.

Clés pour une théologie du ministère Bernard Dominique Marliangeas, 1978. **La théologie de la victoire** François Heim, 1992. L'expression théologie de la victoire désigne une pensée de type idéologique organisée autour de la question : quelles forces faut-il attribuer à la victoire des armées et par conséquent la grandeur romaine ? Le rituel militaire avait déjà répondu la question de la participation publique en accordant une part à l'homme, son courage, sa vertu, son esprit de décision, son conseil, sa science militaire, scientia militaris, et une part à l'action bienveillante et efficace des dieux dont l'intervention était sollicitée par le votum et reconnue par les cérémonies d'actions de grâces, supplications, triomphe, accomplissement des vœux. Au IV^e siècle le débat était relancé par les défaites répétées essuyées par les légions sur les limes et le changement de la religion officielle, partir de Constantin. Les Romains passent sous la protection du Dieu chrétien après avoir attribué pendant des siècles leurs victoires aux divinités du paganisme. La genération de Constantin enthousiaste et sûr d'elle-même proclame l'efficacité souveraine du Dieu chrétien, donneur de victoires et de prospérité.
