

Refining a spreadsheet model and presenting data

Task 4

What data was incorrectly archived?

By using the sort tool on the expired data, I could see that the data on the dates had been entered incorrectly. Excel will automatically sort the data into its relevant fields but I have to make sure that the highlighted range is selected, that the correct data is to be checked and sorted.

Row Labels	Sum of Total cost
Birthday	£43,230.00
Conference	£6,600.00
Other	£18,625.00
Wedding	£87,530.00
(blank)	
Grand Total	£155,985.00

Is it still worth opening the function room to conferences?

As you can see from this pivot table I have created, that the conference room isn't worth keeping as it only made £6,600 in the year 2015 compared to the other rooms that are booked. It's clear to see that weddings make the most money.
