ISBN 0 7668 0320 1 **Driving While Blind** Bob Hazard, 2020-03-06 Driving While Blind took me nearly 10 years to write as I am not a writer by profession I simply feel that the message needs to be available to our young drivers I started this when two of my daughter's High School classmates were killed in a crash That incident made me think that we as adults and parents need to do a better job of teaching our kids how to drive Driving While Blind is a quick easy and informative read that I tried to write with a bit of levity based on my own personal experiences as a road warrior I have driven somewhere near or just over a million miles and I've done that completely crash free I have also been in the automotive industry for most of my adult life this has given me the opportunity to be trained by professional SCCA drivers on several occasions What makes me qualified to write this book Nothing and everything Hopefully by writing this book I will ultimately save lives if I save just one well then I have been a complete success Happy Safe Motoring *The Complete Driver* Clarence Beedle, 2000-12 This is not a how to book It is a how you can book It is not even a book in the conventional sense it is a classroom seminar on advanced driver training It is a discussion about the driving skills drivers have the most difficulty with when it comes to car control It is not a defensive driving manual although there are not any driving skills available to replace defensive driving skills It is a compilation of years of experience observing students participating in advanced driver training Not from the perspective of what they did not know but from the perspective of what they did not understand about driving because it had never been taught It is an in depth discussion about how we can improve our driving skills and car control skills The discussion examines what actually happens just before and during the driving emergency to the driver and the vehicle We will talk about controversial driving subjects candidly and openly We will discuss why the otherwise excellent driver suddenly freezes up when faced with a potentially life threatening driving situation and what we can do to prevent it happening to us On the pages of this book you will become intimately familiar with your vehicle tires steering wheel Brake and accelerator pedals You will get to know those body chemicals that can drive our muscles to do phenomenal things or shut us down You will get to know your eyes and why their correct use is critical to driver car control Skid control is not just about turning the steering wheel in the direction of the skid Skid control is understanding and thereby anticipating everything there is to know about a skid The discussions on advanced driving techniques follow a philosophy that has been proven on the driving course If I simply tell you how to do something and then let you practice until you get it right you may or may not be able to accomplish that action under extreme excitement fear or duress If I can find a way to help you understand WHY certain skills are essential you will retain that knowledge and find a way to practice it and put it to use There are no simple single acts of car control skill during the driving emergency The acts of steering while braking or mastering the techniques of maximum effective braking are easily accomplished in a controlled environment During the highway driving emergency they are several steps down the list of what needed to happen to avoid or reduce the damaging consequences of a crash On the pages of *The Complete Driver* we will examine all aspects of advanced driver skill and what we can do to improve our skills
