Keating,2010-11-19 The second edition of the current leading

nursing text in curriculum development and evaluation continues to serve nurse educators in academic settings as well as in the practice arena. It is a practical guide for developing, revising, and evaluating nursing curricula and educational programs complete with case studies and details on conducting a needs assessment to determine the extent of revision necessary within current curricula. This text focuses on evidence-based practice, safety, and quality assurance concepts and the role of creative and critical thinking aspects. It highlights NLN and AACN core competencies in developing and evaluating curricula in all levels of nursing programs. Additionally, it includes a comprehensive list of critical evaluation and accreditation tips, directions on how to prepare for an accreditation visit, and two proposed curricula for nurse educators to consider adapting into educational materials. Key features: Discusses the continuing growth of technology and its application in nursing programs; Examines health care reform legislation that is expected to change the way care is delivered; Contains updates on the continuing career ladder and entry level issues related to nursing; Provides details on pedagogical methods, objectives, discussion points, learning activities, and references; Includes a glossary of commonly used terms in curriculum development and evaluation. This revised edition further examines several major objectives of the text, including major milestones for the past 100 years in the American nursing education system, program review and accreditation processes, and evaluating current trends in nursing education and their role in curriculum development.

Foundations of Economic Method Lawrence A. Boland, 2020-09-23. Many consider *Foundations of Economic Method* to be Lawrence Boland's best work. This updated edition is radically changed from the original and will be much appreciated by thinkers within economics. The book positions methodology vis-à-vis the current practice of economists and is all the better for it. Yet another book that not only deserves to be read by those within the field of economic methodology but also by those involved in economics at all. Boland is back.

Economics for the IB Diploma with CD-ROM Ellie Tragakes, 2011-11-03. Arranged in four sections, provides review exercises and past examination questions for topics in microeconomics, macroeconomics, international economics, and development economics.

Studying Economics Brian Atkinson, Susan Johns, 2017-03-14. Studying Economics provides a thorough yet digestible and friendly introduction to this often daunting subject. The complex components of economic theory and practice are broken down and explained using a logical approach supported by working examples, tables, and graphs. Introducing differing mainstream approaches to economic study from Marxian to feminist to environmental, this book puts Economics into a context which is easy for any student to understand. Explaining why and how we should study Economics, the book contains invaluable information on course content, learning techniques, revision, writing essays and dissertations, and examination assessment.
