Island of Fear

As humans, we all fear something, and we deal with those fears in ways that match our personalities. In *Lord of the Flies*, William Golding shows the fears of Jack, Ralph, and Piggy and chooses specific ways for each to deal with his fears. Therefore, each of the three boys reacts to fear in his own unique way.

The first boy, Jack, believes that a beast truly does exist. He is afraid and admits it; however, he deals with his fear with aggressive violence. He chooses to hunt for the beast, arm himself with a spear, and practice killing it: "We're strong—we hunt! If there's a beast, we'll hunt it down! We'll close in and beat and beat and beat—!" (91). He also uses the fear of the beast to control and manipulate the other children. Because they fear the beast, they are more likely to listen to Jack and follow his orders. Furthermore, Jack fears Ralph's power over the group and Piggy's rational thought. This is because he knows that both directly conflict with his thirst for absolute power. He responds to these fears in his familiar, violent way. He physically and verbally abuses Piggy, and he argues with Ralph and questions his authority to such an extent that he ends up leaving the group. Jack eventually consolidates his power by forcing the last members of Ralph's group into his tribe and ordering a hunt for Ralph.

A Think-Aloud Approach to Writing Assessment Sarah Beck, 2018. The think aloud approach to classroom writing assessment is designed to expand teachers' perspectives on adolescent students as writers and help them integrate instruction and assessment in a timely way. Emphasizing learning over evaluation, it is especially well suited to revealing students' strengths and helping them overcome common challenges to writing such as writer's block or misunderstanding of the writing task. Through classroom examples, Sarah Beck describes how to implement the think aloud method and shows how this method is flexible and adaptable to any writing assignment and classroom context. The book also discusses the significance of the method in relation to best practices in formative assessment, including how to plan think aloud sessions with students to gain the most useful information. Teachers required to use rubrics or other standardized assessment tools can incorporate the more individualized think aloud approach into their practice without sacrificing the rigor and consistency.
