Passenger Car and 2014 Concept Car Yearbook Automotive Engineering International,2014-11-21 Every year global automakers introduce new or significantly re engineered passenger vehicles with increasingly advanced technology intended to exceed consumer expectations and satisfy increasingly stringent government regulations Some of these technologies are firsts of their kind and start trends that other automakers soon follow with the innovations becoming adopted across the board The supply community is also increasingly playing a more significant role in helping the original equipment manufacturers research develop and introduce the latest engineering innovations that help bring competitive advantage for their automaker partners Each year the editors of SAE's Automotive Engineering magazine publish many articles focused on the technology and engineering innovations of new passenger and concept vehicles and these articles have been collected into this volume This 2015 Passenger Car and 2014 Concept Car Yearbook is the fourth in an ongoing series of books that provide yearly snapshots of the latest and greatest technologies introduced by the automotive industry In this book we explore from an OEM and supplier perspective the newest and most technically interesting production vehicles released for the 2015 model year In addition we also have included a technology focused recap of the concept cars revealed during 2014 Readers will have in one publication a complete overview of the key advances that took place over the course of the year from around the world Each new model is profiled in its own chapter with one or more articles by the award winning editors and contributors of Automotive Engineering in this exclusive compilation of print and online content The novel engineering aspects of each new vehicle are explored with exclusive interviews of key engineers and product developers providing insights you can only get from you can only get from Automotive Engineering This book is published for the most technically minded enthusiasts who are interested in new car technologies as well as practicing automotive engineers who are interested in new engineering trends Engineering trends explored focus on what engineers are doing to meet the sometimes conflicting consumer and governmental demands for improved vehicle fuel efficiency performance safety and comfort In short this book Provides a single source for information on the key engineering trends of the year from both automaker and supplier perspectives Allows the reader to skip to chapters that cover specific car models that interest them or read about all models

from beginning to end Makes for dynamic book reading with its large number of big full color images and easy reading magazine format

Re-Covering in God Sue Watlov Phillips, 2014-05-28 I lost my joy of loving God and loving others as myself as I expressed my thirsting and hungering for God in unhealthy ways Instead of utilizing God's light to guide me I often turned to alcohol and the isms that had become part of my life workaholism perfectionism caretakerism and athleticism My refusal to accept that I had developed the disease of alcoholism after drinking normally for twenty five years created insane scenarios as I turned to alcohol for relief when in a state of dis ease with life but that relief valve became my enemy This was further complicated by doctors not understanding alcoholism and the consequences of prescribing medications to me for pain and anxiety As I walked through the valley of the shadow of death I thought I walked alone My heart soul body and mind wrestled with God over my denial of this disease called alcoholism How could I a Christian for over fifty years be struggling with this disease How could I have hurt God others and me How could I be such a poor witness Would I face the truth with God and let Him reveal the damage done to my foundation Would I face God myself and others and make amends Or would I continue to run and hide in my alcoholism and other isms As I turned to God His light revealed to me the truth about myself and what I needed to do in order to be in His will As I choose to be recovered in God's Spirit each moment the spirits of alcoholism and other isms flee but only as long as I choose to Be still cease striving know God and live In His will not mine

Eyes of Danger M. Garnet, 2014-01-15 Love is strange no matter how young or old you might be Scientist dedicate years studying to see what draws together two humans that love one another I was drawn into love by a pair of dark dangerous eyes It led me from my normal life with everyday work hours and normal friends into a wild chase across the county that was laced with both the scariest danger and the most outstanding love and sex I had never dreamed was possible What I never expected was how it would all end up after everyone wanted me and I was not sure I wanted anything but my old life back

Instruments of War Spencer C. Tucker, 2015-07-28 This highly detailed and well illustrated single volume work documents the evolution of warfare across history through weaponry and technological change In war the weapons and technologies employed have direct effects on how battles are waged When new weapons are introduced they can dramatically alter the outcomes of warfare and consequently change the course of history itself This reference work provides a fascinating overview of the major weapon systems and military technologies that have had a major impact on world history Addressing weapons as crude as the club used by primitive man to the high tech weapons of today such as unmanned drones Instruments of War Weapons and Technologies That Have Changed History offers nearly 270 profusely illustrated entries that examine the key roles played by specific weapons and identify their success and failures The book begins with an introductory essay that frames the subject matter of the work and discusses the history of weapons as a whole The text is concise and accessible to general readers without extensive backgrounds in military history yet provides the detailed information necessary to convey the complexity of the evolution of warfare through technological change

The Wilderness Family Kobie Kruger, 2014-11-28 When Kobie Kruger her game ranger husband and their three young daughters moved to one of the most isolated corners of the world a remote ranger station in the Mahlangeni region of South Africa's vast Kruger National Park she might have worried that she would become engulfed with loneliness and boredom Yet for Kobie and her family the seventeen years spent in this spectacularly beautiful park proved to be the most magical and occasionally the most hair raising of their lives Kobie recounts their enchanting adventures and extraordinary experiences in this vast reserve a place where bathed in golden sunlight hippos basked in the glittering waters of the Letaba River storks and herons perched along the shoreline and fruit bats hung in the sausage trees But as the Krugers settled in they discovered that not all was peace and harmony They soon became accustomed to living with the

unexpected the sneaky hyenas who stole blankets and cooking pots the sinister looking pythons that slithered into the house and the usually placid elephants who grew foul tempered in the violent heat of the summer And one terrible day a lion attacked Kobus in the bush and nearly killed him Yet nothing prepared the Krugers for their greatest adventure of all the raising of an orphaned prince a lion cub who when they found him was only a few days old and on the verge of death Reared on a cocktail of love and bottles of fat enriched milk Leo soon became an affectionate rambunctious and adored member of the family It is the rearing of this young king and the hilarious endeavours to teach him to become a real lion who could survive with his own kind in the wild that lie at the heart of this endearing memoir It is a memoir of a magical place and time that can never be recaptured
