The American Marshall Plan Film Campaign and the Europeans Maria Fritsche, 2018-02-08 The US government launched the European Recovery Programme otherwise known as the Marshall Plan in order to save war torn Europe from collapse in 1948 Yet while much is known about the economic side of the Marshall Plan the extensive film campaign that accompanied it has been largely overlooked until now The American Marshall Plan Film Campaign and the Europeans is the first book to explore the use of the Marshall Plan films and importantly their distribution and reception across Europe The study examines every available film the 170 that remain from the 200 estimated to have been made and looks at how they were designed to instil hope argue the case for economic restructuring and persuade the Europeans of the superiority of the liberal capitalist system The book goes on to reason that the films served as a powerful weapon in the cultural Cold War but that the European audiences were by no means passive victims of the US propaganda effort Maria Fritsche discusses the Marshall Plan films in the context of countries across Western Northern and Southern Europe covering the majority of the 17 European countries that participated in the Plan in the process The book incorporates 70 images and utilises a vast number of archival sources to explore the strategies the US adopted to sway the minds of the Europeans the problems they encountered in the process and not least the varied responses of the European audiences It is a vital study for any scholar or student keen to know more about postwar recovery in Europe the legacy of the Second World War or America's relationship with Europe in the 20th century

L'image dans l'histoire de la formation des adultes Françoise Laot, 2010-11-01 Si l'image en tant qu'outil pédagogique a souvent fait l'objet de discussions son utilisation

dans l'histoire de l'éducation a-t-il plus rarement étudié et c'est alors plutôt l'enfant qui est placé au centre des analyses. Cet ouvrage présente une variété de pratiques s'appuyant sur l'image dans la formation des adultes : la lanterne magique dans les cours du soir au XIX^e siècle, le cinématographe dans l'entre-deux guerres, la bande dessinée également comme support d'alphabétisation ou plus récemment les outils multimédia dans la formation professionnelle. **Marcel Lesne** Françoise F.

Laot, Madeleine Maillebois, 2016-01-01 Marcel Lesne 1916-2012 est l'un des premiers théoriciens de la formation des adultes en France. On lui doit les fondements d'une sociologie de la formation et d'importantes avancées dans la réflexion sur le travail pédagogique en formation d'adultes. Cet ouvrage propose d'associer le récit de la vie à l'analyse de l'œuvre de Marcel Lesne. C'est plus largement l'histoire d'un parcours de promotion sociale dans un contexte politique particulièrement difficile : la guerre, la captivité, l'exercice du métier d'instituteur, d'inspecteur au Maroc et directeur des centres sociaux en Algérie. Gender in Learning and Teaching Carol A. Taylor, Chantal Amade-Escot, Andrea Abbas, 2019-04-26

Gender in Learning and Teaching brings together leading gender and feminist scholars to provide a unique collection of international research into learning and teaching. Through dialogues across national traditions and boundaries, the authors provide new insights into the relations between feminist scholarship of pedagogy, gender and didactics, and offer in-depth accounts that critically investigate how gender relations are enacted, contested and analysed at the level of the classroom, the curriculum and the institution. Drawing on original research, the chapters explore gender dynamics in relation to student-teacher interactions, gendered classroom practices, curriculum content and knowledge formation in different subjects. The book includes accounts of innovative approaches to curriculum development to address gender inequality. It includes new theoretical frameworks and methodological approaches which provide fresh insights into gendered practices, including intersectionality, new material feminism, epistemic gender positioning and cultural anthropology. The chapters span all education phases from early years to higher education. This book makes a compelling case for the continuing relevance of feminist pedagogy and the urgent need for strategies to address gender inequalities in the classroom and beyond. It will be of great interest to academics and postgraduate students in the fields of theory, philosophy and feminist politics of learning and teaching, education and didactics, feminism and pedagogy, sociology and the arts. **Comment utiliser la vidéo pour améliorer sa pratique professionnelle ?** Véronique Devermelles, 2018-04-17

L'autobiographie raisonnée est mutatis mutandis la forme prise par l'approche narrative en formation professionnelle dans les secteurs de l'action sociale et de l'économie sociale et solidaire. Particulièrement utile au sein du mouvement coopératif, elle permet aux acteurs de prendre conscience de leur parcours de vie personnelle et professionnelle de l'exprimer et le formaliser. Le résultat de ce travail se traduit en termes de compétence professionnelle de savoir-faire transmissible ou de culture et projet d'entreprise. Didactique en construction, constructions des didactiques
 Jean-Luc Dorier, Franca Leutenegger, Bernard Schneuwly, 2013-08-08. Depuis une quarantaine d'années, les didactiques disciplinaires mergent et se développent avec une certaine indépendance. Dans quelle mesure au-delà de leurs diversités peut-on parler d'un champ scientifique d'analyse de la compréhension de la transmission et de la diffusion des savoirs dans la société ? Quels sont les possibles, les obstacles, les contradictions de la construction d'une didactique ? Partir des didactiques. L'ouvrage s'ouvre sur deux panoramas qui présentent du point de vue du rapport entre didactiques disciplinaires et didactique comme champ académique la recherche en Allemagne et en France. Les dix contributions qui suivent apportent ensuite quelques éclairages travers la présentation de travaux empiriques et des éléments de réflexion pistologiques. Ces travaux qui sont souvent le fruit de collaborations entre plusieurs équipes s'organisent autour de deux axes : l'un centré sur les contenus d'enseignement et les savoirs de référence, éventuellement en lien avec des demandes sociales ; l'autre qui aborde des questions relevant des concepts et des méthodes de recherche et qui traversent plusieurs didactiques disciplinaires ou plusieurs objets disciplinaires. Les travaux rassemblés dans ce volume laissent entrevoir que la didactique comme champ académique semble se construire travers la consolidation des didactiques disciplinaires. 50 couples mythiques de la littérature, de l'Odyssée à Harry Potter Raphaël Lucchini, Benoît Meunier, Tsolag Paloyan, Jérémie Pinguet, Christine Vulliard, 2021-03-09. D'Homer à J.K. Rowling du VIII^e avant Jésus-Christ nos jours, les grandes histoires d'amour des plus heureuses aux plus tragiques, des plus sombres aux plus solaires, sont légion dans toutes les littératures. Que serait Ulysse sans Pénélope ? Tristan sans Isolde ? Roméo sans Juliette ? La Princesse de Clèves sans le duc de Nemours ? Scarlett sans Rhett ? Les cinquante nuances de couples ici choisies sont destinées à illustrer la diversité des amours et de leurs manifestations : amour passionnel ou tendre, criminel ou théâtral, chaste ou charnel, consommé ou fantasme. La palette amoureuse est vaste et colorée. Ces célèbres duos ont laissé leur empreinte dans l'histoire littéraire et certains ont même enrichi notre vocabulaire : un don Juan peut faire catleya avec sa dulcinée, parachevant ainsi son éducation sentimentale. Mais gare aux liaisons dangereuses ! Que ces couples se soient aimés quelques jours, des années, toute une vie ou par-delà la mort, qu'ils se soient adorés, détestés, séduits ou méprisés, que leur amour ait triomphé ou non, ils restent indélébilement liés dans notre mémoire collective. En ce sens, les personnages formant chacun des couples étudiés
