Limpopo Province Social Science History Exemplar 2014:

Proceedings of the 10th Focus Conference (TFC 2023) Manyane Makua, Mariam Akinlolu, Mashango Sithole, Phiwayinkosi Gumede, Cebo Nyondo, Ntombikhona Khuzwayo, Mandlenkosi Mhlongo, 2023-11-03 This is an open access book The 2023 Focus Conference will focus on Goal Four Quality Education of the United Nations UN Sustainable Development Goals SGD Goal Four is seized with providing equal access for all women and men to affordable and quality technical vocational and tertiary education including university Quality education in this context means the ability to function provide and derive value in society The theme of the conference is therefore coined as The Role of Higher Education in the Attainment of Sustainable Quality Education Through this theme the conference will provide a space for participants to share practical knowledge experiences and possible solutions to the myriad of problems that confront the higher education sector Universities are often thought of as ivory towers far removed from the realities that confront global societies To compound this higher education is increasingly being questioned for its relevance in providing practical and innovative solutions to existing societal problems Such questions often navigate around the relevance of the academic programmes being offered curriculum the capacity of staff employability of graduates and generally the ability of these institutions to understand why they exist Indeed higher education's role in creating a sustainable future will presumably take on greater importance as the world continues to become increasingly globalised and interdependent Families in Motion Clara Gerhardt, 2019-11-13 Dynamics of the family can be seen as a complex set of interrelated cogs like the dials and wheels within a sophisticated timepiece Families in Motion Dynamics in Diverse Contexts is a clear comprehensive and contextual view of how the dials and wheels of that complex set work together With a focus on multicultural competence through diverse contexts and examples this new text explores the complexities of the family regarding roles functions and development in a way that is approachable for students Grounded in theory and using 40 years of academic experience author Clara Gerhardt guides readers through concepts of family theories and examines the ever changing movement communication and conditions of both the family as a system and each member within the system Covering approaches from the theoretical to the therapeutic Families in Motion will support students in extending their cultural competence while understanding families and their members with greater confidence **We Want What's Ours** Bernadette Atuahene, 2014-06-26 Millions of people all over the world have been displaced from their homes and property Dispossessed individuals and communities often lose more than the physical structures they live in and their material belongings they are also denied their dignity These are dignity takings and land dispossessions occurring in South Africa during colonialism and apartheid are quintessential examples There have been numerous examples of dignity takings throughout the world but South Africa stands apart because of its unique remedial efforts The nation has attempted to move beyond the more common step of providing reparations compensation for physical losses to instead facilitating dignity restoration which is a comprehensive remedy that seeks to

restore property while also confronting the underlying dehumanization infantilization and political exclusion that enabled the injustice Dignity restoration is the fusion of reparations with restorative justice In *We Want What's Ours* Bernadette Atuahene's detailed research and interviews with over one hundred and fifty South Africans who participated in the nation's land restitution program provide a snapshot of South Africa's successes and failures in achieving dignity restoration *We Want What's Ours* is globally relevant because dignity takings have happened all around the world and throughout history the Nazi confiscation of property from Jews during World War II the Hutu taking of property from Tutsis during the Rwandan genocide the widespread commandeering of native peoples property across the globe and Saddam Hussein's seizing of property from the Kurds and others in Iraq are but a few examples When people are deprived of their property and dignity in years to come the lessons learned in South Africa can help governments policy makers scholars and international institutions make the transition from reparations to the more robust project of dignity restoration
