Appreciating the Art of Television Ted Nannicelli, 2016-09-13 Contemporary television has been marked by such exceptional programming that it

is now common to hear claims that TV has finally become an art In *Appreciating the Art of Television* Nannicelli contends that televisual art is not a recent development but has in fact existed for a long time Yet despite the flourishing of two relevant academic subfields the philosophy of film and television aesthetics there is little scholarship on television in general as an art form This book aims to provide scholars active in television aesthetics with a critical overview of the relevant philosophical literature while also giving philosophers of film a particular account of the art of television that will hopefully spur further interest and debate It offers the first sustained theoretical examination of what is involved in appreciating television as an art and how this bears on the practical business of television scholars critics students and fans namely the comprehension interpretation and evaluation of specific televisual artworks *Manual of Romance Morphosyntax and Syntax* Andreas Dufter, Elisabeth Stark, 2017-09-25 This volume offers theoretically informed surveys of topics that have figured prominently in morphosyntactic and syntactic research into Romance languages and dialects We define syntax as being the linguistic component that assembles linguistic units such as roots or functional morphemes into grammatical sentences and morphosyntax as being an umbrella term for all morphological relations between these linguistic units which either trigger morphological marking e g explicit case morphemes or are related to ordering issues e g subjects precede finite verbs whenever there is number agreement between them All 24 chapters adopt a comparative perspective on these two fields of research highlighting cross linguistic grammatical similarities and differences within the Romance language family In addition many chapters address issues related to variation observable within individual Romance languages and grammatical change from Latin to Romance **National Theatre Connections 2022** Miriam Battye, Belgrade Theatre, Stef Smith, Katie Hims, Abbey Wright, Shireen Mula, Matt Regan, Lisa Goldman, Ayesha Menon, David Judge, Fionnuala Kennedy, Tim Crouch, 2022-05-19 It is the scale and range of creative collaboration inherent in theatre that sits at the very heart of National Theatre Connections National Theatre Connections 2022 draws together ten new plays for young people to perform from some of the UK's most exciting playwrights These are plays for a generation of theatre makers who want to ask questions challenge assertions and test the boundaries and for those who love to invent and imagine a world of possibilities The plays offer young performers an engaging and diverse range of material to perform read or study This 2022 anthology represents the full set of ten plays offered by the National Theatre 2022 Festival as well as comprehensive workshop notes that give insights and inspiration for building characters running rehearsals and staging a production *Sustainable Living with Environmental Risks* Nobuhiro Kaneko, Shinji Yoshiura, Masanori Kobayashi, 2014-03-11 We are not free from environmental risks that accompany the development of human societies Modern economic development has accelerated environmental pollution caused loss of natural habitats and modified landscapes These environmental changes have impacted natural systems water and heat circulation nutrient cycling and biodiversity These changes in natural systems degrade ecosystem services and subsequently increase environmental risks for humans Environmental risks therefore are not only

human health risks by pollution climatic anomalies and natural disasters but also degradation of ecosystem services on which most people are relying for their lives We cannot entirely eliminate the risks because it is not possible to attain zero impact on the environment but we need to find a mechanism that minimizes environmental risks for human sustainably This is the idea of the interdisciplinary framework of environmental risk management theory which advocates harmony between economic development and environmental conservation Based on this theory the Sustainable Living with Environmental Risk SLER programme adopted by the Japanese Ministry of Education MEXT as one of its strategic programmes has been training graduate students at the Yokohama National University Japan from 2009 to 2013 to become future environmental leaders who will take the initiative in reducing the level of environmental risks and in protecting natural resources in the developing nations of Asia and Africa This book provides students and teachers of this new academic field with a comprehensive coverage of case studies of environmental risks and their practical management technologies not only in Japan but also in developing nations in Asia and Africa
