Gia Lab Manual Colored Stones:

GEM HUNTER George Frangoulis, 2015-04-18 Gem hunting can be like playing the geological lottery You may spend hours performing backbreaking work and pay fees for access to mine tailings only to find a few semiprecious stones that aren't worth much Another person may randomly reach into a pile of dirt and pull out a diamond worth thousands of dollars Looking for interesting gems and crystals can be a rewarding hobby even if you don't hit the jackpot Many recreational gem hunters enjoy spending time outdoors learning about geology and hanging out with their gem hunting friends Whether you're new to gem hunting or a seasoned pro this new book provides in depth information on some of the Earth's most sought after precious and semi precious gemstones *Jewelry & Gems - The Buying Guide, 7th Edition*, 2009 **Modern Jeweler's Consumer Guide to Colored Gemstones** David Federman, 2012-12-06 Since early 1989 a gem dealer I've known for years has been calling me every few weeks to brief me on mounting mayhem in Colombia's lucrative emerald market The troubling gist of these calls is always this There is a full fledged turf war going on between that South American country's bustling drug and gem trades for control of its emerald export business According to this dealer and several others anywhere from two to four thousand emerald industry people mostly miners and dealers have been murdered since 1980 No doubt the gem sector itself never gun shy has retaliated in full and in kind After all the two groups have banded together in an intermittent alliance against a common enemy Communist guerillas with results the CIA would envy I mention this bloodshed because of something the gem dealer once said to me I bet you never think of what a gem has to go through to get to a jewelry store He's right I tend to think of colored stones as things of beauty not objects of gruesome power struggles between mining kingpins and drug lords Can you blame me or anyone with insider knowledge if a gem sheds any connection with its past once sculpted by a cutter into the glittering marvel we see in a jeweler's showcase Like Odysseus listening to the sirens song we become victims of an aesthetics induced amnesia *Jewelry & Gems—The Buying Guide (7th Edition)* Antoinette Matlins, Antonio C. Bonanno, 2012-11-07 Over 400 000 Copies in Print Know What You Want Know What You're Buying Learn the Secrets to Get the Most for Your Money Easy to Read Easy to Understand Practical Complete Instant Answers to All Your Questions Completely Updated what to look for and look out for all about gold and platinum jewelry design and some of the country's leading designers You'll learn what questions to ask and what to get in writing and even how to select the jeweler appraiser and insurer The authors leave no stone unturned to give you everything you need to know whether you are a novice or a connoisseur With *Jewelry Gems The Buying Guide* you'll find the experience can be a joy and the gems and jewelry you select a source of lasting pleasure *Jewelry & Gems The Buying Guide* Antoinette Matlins, 2012-12-06 to this edition In working with my own clients to acquire gemstones and jewelry since this book was first published in 1984 they have pointed out that most people buy jewelry and not gemstones Because the book offers so much practical advice and money saving tips about buying jewelry they urged me to change the title So in this edition *The Complete Guide to Buying Gems* has been

changed to Jewelry Gems The Buying Guide Consumer and professional response to the book has been very gratifying Almost 14 000 hardcover copies are in circulation We have received hundreds of letters phone calls and in person comments about the helpfulness and interesting information it provides We thank you for encouraging us to make the book more widely available by bringing out this softcover edition We have taken the opportunity of this softcover edition to update the price guides for diamonds and colored gemstones and in light of the increase in both the popularity and price of pearls to add a price guide for them in the Guide to Popular Gems and Their Prices Also we want to take this opportunity to comment further on gem investment taking into account major developments since the original manuscript was written in 1980 From Satan's Crown to the Holy Grail Diane Morgan,2007-03-30 Morgan discusses the origin of the emerald its peculiar structure and its strange allure The story weaves across several continents and thousands of years It is a tale of conquistadors treachery shipwrecks and alchemy Along the way we meet scientists and kings and bear witness as the great emeralds are born mined smuggled cut and sold The book also discusses the modern art of making synthetic emeralds From the fastnesses of Afghanistan to the steamy jungles of Colombia and Zimbabwe from the sands of Egypt to the bitter Urals this is the story of a stone whose strange journey reflects the yearnings greed passions and longing for beauty of the human race
