Greening Existing Buildings :

Sustainable Preservation Jean Carroon, 2010-11-16 Sustainable Preservation takes a nuanced look at the hundreds of choices that adaptive reuse requires architects to make from ingenious ways to redeploy existing structural elements to time honored techniques for natural ventilation to creation of wetlands that restore a site's natural biological functions In addition Sustainable Preservation presents 50 case studies of projects schools houses offices stores museums and government buildings that set new standards for holistic approaches to adaptive reuse and sustainability The author covers design issues from building location to lighting systems renewable power options stormwater handling and building envelope protection and integrity The book also reviews operational issues including materials choices for low lifetime maintenance green housekeeping and indoor air quality

Greening Existing Buildings Jerry Yudelson, Greening Existing Buildings with Leadership in Energy and Environmental Design-Existing Buildings! Tyson H. Dirksen, Mark D. McGowan, Massachusetts Institute of Technology. Department of Urban Studies and Planning, Massachusetts Institute of Technology. Center for Real Estate, 2008 The market of existing office buildings is going green While early adopters of green buildings were owner occupiers there is a current wave of nonowner occupied office buildings seeking Leadership in Energy and Environmental Design LEED for Existing Buildings certification This thesis examines the current context in which this dramatic change is transpiring as well as answers the following questions as they relate to this green transformation of existing multitenanted office buildings Who is participating Why are they participating What is the process What are the costs How is it being financed Research conducted included literature review and interviews with building owners property managers building engineers and brokers in several major metropolitan office markets in the United States This thesis examines green building rating systems from around the world We focus on the LEED rating system the most widely used in the United States as it provides a good framework for owners and managers to evaluate and benchmark the environmental performance of their building Our research indicates that a much higher percentage of Class A office building owners and managers are pursuing LEED for Existing Building LEED EB certification while Class B owners and managers are not Class B owners face less incentives and greater obstacles when pursuing LEED EB certification In chapter four of this thesis we explore two creative ways that Class B owners and managers may be able to overcome some of these hurdles Energy Savings Performance Contracts ESPCs and Power Purchase Agreements PPA

The Paid-From-Savings Guide to Green Existing Buildings Robert Neal Van Der Like, Peggy Meehan, 2009-01-01

The Green Building Evolution Godwell Nhamo, Vuyo Mjimba, 2019-12-19 The Green Building Evolution illuminates global examples and makes use of case studies mainly from South Africa This book is in five parts Part I is a single introductory chapter centred on the evolution of the green building movement Part II addresses the green building terrain Part III presents selected case studies Part IV focuses on chapters that address pushing the boundaries in the green building space while Part V presents emerging trends and policy

perspectives Further details are contained in the main body of the book It is our sincere hope that readers will experience the book as an informative and ground breaking adventure Written by 14 authors from different academic disciplines and areas of specialisation the book comes as the sixth in a series that addresses global and national concerns on climate change sustainable development and the green economy transition agenda The book series is conceptualised and coordinated by the Exxaro Chair in Business and Climate Change led by Prof Godwell Nhamo and hosted by the Institute for Corporate Citizenship ICC at the University of South Africa UNISA The books are published by the Human Sciences Research Council HSRC through the Africa Institute of South Africa

Green Buildings and the Law Julie Adshead,2011-04-12 Legislation and regulation are driving green development and compliance in a wide variety of ways This review of the law in key jurisdictions for the research community lawyers the construction industry and government examines some of the mechanisms in place from the more traditional building regulation controls to green leases and the law relating to buildings and their natural environment

The Law of Green Buildings J. Cullen Howe,2010 Examining the most important issues in achieving the goal of building more efficient and less damaging buildings this book highlight the significant statutes and regulations as well as other legal issues that need to be considered when advising clients in the development construction financing and leasing of a green building Topics include federal incentive programs financing alternative energy site selection land use planning green construction practices and materials emerging legal issues and the effects of climate change on planning and architectural design

Advances in Energy and Built Environment Guoqiang Zhang,N. D. Kaushika,S. C. Kaushik,R. K. Tomar,2019-06-29 This book comprises select papers presented at the International Conference on Trends and Recent Advances in Civil Engineering TRACE 2018 The book presents results of experimental investigations into the latest topics related to energy and built environment The topics covered include green and clean technologies zero energy buildings solar energy energy conservation and heat recovery and solar architecture The contents of this book will be beneficial to students researchers and professionals working in the area of energy and built environment engineering

The Routledge Handbook on Greening High-Density Cities Peng Du,Kheir Al-Kodmany,Mir M. Ali,2024-06-17 This new handbook provides a platform to bring together multidisciplinary researchers focusing on greening high density agglomerations from three perspectives climate change social implications and people s health Written by leading scholars and experts the chapters aim to summarize the state of the art and produce a reference book for policymakers practitioners academics and researchers to study design and build high density cities by integrating green spaces The topics covered in the book include but are not limited to Urban Heat Island Green Space and Carbon Sequestration Green Space and Social Equity Green Space and Public Health Biophilic Cities Urban Agriculture Vertical Farms Urban Farming Technologies Nature and Biodiversity Nature and Health Biophilic Design Green Infrastructure Urban Revitalization Post Covid Cities Smart and Resilient Cities Tall Buildings and Sustainable Vertical Cities

Reinventing Green Building Jerry Yudelson,2016-04-25

Buildings and their associated systems are the largest source of greenhouse gases in the world The 2030 Challenge aims to produce zero net energy from new North American construction by 2030 while achieving a 50 percent reduction in carbon emissions from existing buildings With less than 4 percent of commercial and residential structures in the United States and Canada certified by 2015 we seem destined to fall catastrophically short of this target Reinventing Green Building combines a unique insider's critique of the current state of affairs with a potent vision for the future This highly visual data driven analysis brings together the wisdom of today's leading practitioners including Up to date information on green building issues energy economics and new technology Dramatic new approaches to certification system design and user experience Creative outside the box solutions using the Internet of Things big data analytics and cloud based technologies for building management The green building revolution has failed to fulfill its promise to transform the marketplace in a meaningful way Smart simple and sustainable Reinventing Green Building presents a new approach to certification designed to radically cut costs while dramatically increasing marketplace acceptance integrating true climate mitigation and better building performance Jerry Yudelson dubbed The Godfather of Green by Wired magazine in 2011 has many years of professional experience in the green building field elected as a LEED Fellow and having served as the president of the Green Building Initiative He is the author of thirteen books in the field including Dry Run Choosing Green and Green Building A Z

Greening Spaces for Worship and Ministry Mark A. Torgerson, 2012-05-04 Greening Spaces for Worship and Ministry is a comprehensive guide The book provides a rationale strategies and resources for fulfilling environmental stewardship through the land and buildings of Christian and Jewish congregations New construction renovation and historic preservation projects are addressed Site development material choices energy generation and consumption water use interior air quality green cleaning programs and beauty are discussed Ten congregations from across the United States and Canada are featured as examples of excellence in creation care in and through their built environments

Handbook of Green Building Design and Construction Sam Kubba, 2016-10-15 Handbook of Green Building Design and Construction LEED BREEAM and Green Globes Second Edition directly addresses the needs of building professionals interested in the evolving principles strategies and concepts of green sustainable design Written in an easy to understand style the book is updated to reflect new standards to LEED In addition readers will find sections that cover the new standards to BREEAM that involve new construction Infrastructure data centers warehouses and existing buildings Provides vital information and penetrating insights into three of the top Green Building Codes and Standards applied Internationally Includes the latest updates for complying with LEED v4 Practices and BREEAM Presents case studies that draws on over 35 years of personal experience from across the world

Emerging Research in Sustainable Energy and Buildings for a Low-Carbon Future Robert J. Howlett, John R. Littlewood, Lakhmi C. Jain, 2021-02-06 This book contains an introduction and 20 studies each describing a recent research investigation in the area of sustainable and resilient buildings built environment infrastructure and renewable energy

Contributions are from many different countries of the world and on a range of topics representing a sample of research within the sustainable energy and buildings field The book begins with chapters on the sustainable design of buildings followed by descriptions of issues relating to the renovation restoration and reconstruction of existing buildings or in one case a railway wagon The next part of the book covers factors that form barriers or impediments to low or zero carbon buildings followed by studies of issues relating to policy and certification There then follow four chapters on various topics related to sustainable buildings undergraduate courses insurance issues biophilia relating to buildings and thermal conductivity measurement There are several chapters relating to renewable energy followed by two chapters with a sustainable transport theme one relating to electric vehicles and the other about a sustainable road infrastructure The final chapter is on the manufacture of sustainable building components for the UK housing sector The book is of use to engineers scientists researchers practitioners academics and all those who are interested to develop and use sustainability science and technology for the betterment of our planet and humankind and to mitigate climate change reality

Becoming a Green Building Professional Holley Henderson, 2012-08-03 A career guide for professionals in sustainable architecture design planning development and related consulting For those considering a new career or a career change focused on green and sustainable building and design Becoming a Green Building Professional offers practical information on educational requirements career options guidance and tips and first hand interviews with green building professionals Perfect for underemployed architects and other building and design professionals who want to reinvent and renew their careers as well as students considering such a career this is a vital and informative guide to a growing field

Building Information Modelling (BIM) in Design, Construction and Operations IV J. Casares, A. Galiano Garrigós, 2021-12-29 Containing papers presented at the 4th International Conference on Building Information Modelling BIM in Design Construction and Operations this volume brings together the research of experts from industry practice and academia It describes innovative solutions and predictions for future trends across key BIM related topics The modern construction industry and built environment disciplines have been transformed through the development of new and innovative BIM tools and techniques These have fundamentally altered the manner in which construction teams operate the processes through which designs are evolved and the relationships between conceptual detail construction and life cycle stages BIM is essentially value creating collaboration throughout the entire life cycle of an asset underpinned by the data attached to them BIM has far and reaching consequences on both building procurement and infrastructure This recent emergence constitutes one of the most exciting developments in the field of the Built Environment These advances have offered project teams multi sensory collaborative tools and opportunities for new communication structures The included papers cover such topics as BIM in design coordination BIM in construction operations BIM in building operation and maintenance BIM and sustainability BIM and collaborative working and practices BIM Facilities management integration BIM GIS integration BIM and automation in

construction BIM and health and safety BIM standards BIM and interoperability BIM and life cycle project management BIM and cultural heritage BIM and robotics BIM in risk analysis and management BIM in building cost control BIM and building representation Virtual design and construction VDC BIM in the execution phase BIM for infrastructure development Digital twins

Sustainable Preservation Jean Carroon, 2011-02-15 Sustainable Preservation takes a nuanced look at the hundreds of choices that adaptive reuse requires architects to make from ingenious ways to redeploy existing structural elements to time honored techniques for natural ventilation to creation of wetlands that restore a site's natural biological functions In addition Sustainable Preservation presents 50 case studies of projects schools houses offices stores museums and government buildings that set new standards for holistic approaches to adaptive reuse and sustainability The author covers design issues from building location to lighting systems renewable power options stormwater handling and building envelope protection and integrity The book also reviews operational issues including materials choices for low lifetime maintenance green housekeeping and indoor air quality

Future is Urban: Livability, Resilience & Resource Conservation Utpal Sharma, R. Parthasarathy, Dr Aparna, 2023-05-26 Cities have played an important role in our lives since the dawn of civilization However cities are slowly becoming overwhelmed and therefore intervention is desirable towards green blue and egalitarian nature Even with current urban issues we must rise to the occasion as professionals to create cities that are social cities that take care of the environment and cities that are digital Increased citizen participation is indispensable in this process The International Conference on Future is Urban IFCU 21 Dec 16 18 2021 Ahmedabad India takes into account Livability Resilience Resource Conservation for planning Future and cities in future

Latest Developments in Civil Engineering Krishna Kant Pathak, J. M. S. J. Bandara, Ramakant Agrawal, 2023-10-02 This book comprises select proceedings of the International Conference on Recent Advances in Civil Engineering RACE 2022 The contents of this book focus on the recent advancements and innovations in the field of civil engineering and various related areas such as design and development of new sustainable and smart building materials performance analysis and simulation of steel structures design and performance optimization of concrete structures structural engineering geotechnical engineering water resources engineering and hydraulics transportation and bridge engineering building services design surveying and remote sensing engineering management and renewable energy This book serves as a useful reference to researchers and professionals in the field of civil engineering

Smart Energy Practices for a Sustainable World Nina S. Godbole, John P. Lamb, 2023-06-13 Mankind has scaled unprecedented growth since the advent of the Industrial Revolution However this progress has come at the hefty cost of environmental degradation Climate change undeniably is one of the biggest challenges of the planet Earth and is largely anthropogenic In the modern world context the phenomenon of climate change is one of the most defining issues when it comes to realizing objectives of the Sustainable Development Goals SDGs Climate change is not limited to geographical boundaries it is a global problem hence requires global solutions It has been widely discussed and

therefore has acquired centre stage across the major world forums Smart Energy Practices for a Sustainable World how we all can contribute stresses the need for us to judiciously sustainably and smartly harness and use energy techniques in order to effectively combat climate change The book also gives an in depth discussion on utilization of artificial intelligence and information technology to realize energy efficiency in various sectors of economy including but not limited to transportation buildings infrastructure health care and other services Text is supplemented by case studies that depict ground level reality to facilitate comprehension of the subject matter The appendices serve as an extended learning of the concepts discussed in the chapters The publication would serve as a valuable reference for both scholars and researchers engaged in the domain in addition to being a guide to industry as well as the academic world

Table of Contents

- 1 Smart Sustainable and Green the mantra to save our planet
- 2 Smart Energy Systems and Components
- 3 Energy Production and Delivery
- 4 Impact of Electronic Equipment on Energy Use and Carbon Footprint
- 5 Standard Energy Use and Carbon Footprint Metrics
- 6 Smart Buildings planning and construction
- 7 Transport smarter commuting and energy efficient mobility
- 8 Electronic Commerce and Other Digital Services for Smart Planet
- 9 Sustainable Practices for Green Health Care Services
- 10 Knowledge and Behaviour for a Smart Planet
- 11 Energy Audits
- 12 Worldwide Case Studies for Green Practices
- 13 The Future for Energy Use in Our Planet

Appendices

Green Urbanism Everett Sinclair, AI, 2025-02-21 Green Urbanism explores how cities can evolve into balanced ecosystems that prioritize human well being alongside environmental health It examines the integration of nature into urban design the use of sustainable building materials and eco conscious planning highlighting the necessity for sustainable urban development to combat environmental challenges The book emphasizes how innovative architectural designs and urban planning policies can mitigate climate change reduce pollution and conserve resources while also promoting equitable and accessible urban environments Did you know that green roofs and urban forests can significantly improve air and water quality Or that mixed use development can lead to more walkable and livable cities This book stands out by adopting a holistic integrated approach to green urbanism moving beyond individual buildings to examine broader systems It begins with core concepts like ecological design and social equity progresses through topics such as green infrastructure sustainable building materials and urban planning strategies and concludes with global case studies providing a practical guide for creating sustainable resilient and equitable cities This comprehensive and accessible book is a valuable resource for architects urban planners and anyone passionate about sustainability and environmental conservation

Embark on a breathtaking journey through nature and adventure with is mesmerizing ebook, **Greening Existing Buildings** . This immersive experience, available for download in a PDF format (PDF Size: *), transports you to the heart of natural marvels and thrilling escapades. Download now and let the adventure begin!

Greening Existing Buildings Introduction

In the digital age, access to information has become easier than ever before. The ability to download Greening Existing Buildings has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Greening Existing Buildings has opened up a world of possibilities. Downloading Greening Existing Buildings provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Greening Existing Buildings has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Greening Existing Buildings . These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Greening Existing Buildings . Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Greening Existing Buildings , users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Greening Existing Buildings has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of

continuous learning and intellectual growth.

FAQs About Greening Existing Buildings Books

1. Where can I buy Greening Existing Buildings books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Greening Existing Buildings book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Greening Existing Buildings books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Greening Existing Buildings audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.

10. Can I read Greening Existing Buildings books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
