Lead Babies and Poisoned Housing Carolyn R. Boiarsky, 2024-09-01 Drawing on historic sources as well as present day interviews *Lead Babies and Poisoned Housing* is a story about systemic racism environmental injustice and the failure of government In 2016 1 100 mainly minority residents of a low income housing complex in East Chicago Indiana received a letter from the city forcibly evicting them from their homes because a high level of lead was found in the soil under their houses The residents were given two months to move Many could not find safe housing nearby The site was designated by the Environmental Protection Agency as a Superfund site because of the large amount of toxic material on it More than 1 300 similar sites are located throughout the United States Over 70 million people live within three miles of one of these sites Five years later the U S Department of Housing and Urban Development Office of Inspector General charged three federal agencies EPA HUD and CDC with causing the lead poisoning of children living in the complex The EPA responsible for the cleanup had been aware of the situation for 35 years The director of the local housing authority admitted to building the complex over a demolished lead smelter When health issues arose the housing authority blamed the residents sanitary habits rather than its own failure to maintain the structures The Centers for Disease Control and Prevention s testing of blood lead levels was revealed to be faulty In short the very agencies that were supposed to protect these people instead neglected ignored and blamed them But this isn t just a story of victimization it is also about empowerment and community members insisting their voices be heard *Lead Babies and Poisoned Housing* records the human side of what happens when the industries responsible for polluting leave but the residents remain Those residents tell their stories in their own words not just what happened to them but how they acted in response We should listen not only for justice but as a cautionary tale against repeated history *Baby Bites* Bridget Swinney, MS, RD, 2011-01-18 This book helps parents with everything they
