National Library of Medicine Current Catalog National Library of Medicine (U.S.),1971 Non-Judicial Remedies and EU Administration Paola Chirulli, Luca De Lucia, 2021-03-11 The increasing number of executive tasks assigned to EU institutions and agencies has resulted in a greater demand for justice that can no longer be satisfied by the courts alone This has led to the development of a wide range of administrative remedies that have become a central part of the EU administrative justice system This book examines the important theoretical and practical issues raised by this phenomenon The work focuses on five administrative remedies internal review administrative appeals to the Commission against decisions of executive and decentralised agencies independent administrative review of decisions of decentralised agencies complaints to the EU Ombudsman and complaints to the EU Data Protection Supervisor The research rests on the idea that there is a complex and at times ambivalent relationship between administrative remedies and the varying degrees of autonomy of EU institutions and bodies offices and agencies The work draws on legislation internal rules of executive bodies administrative practices and specific case law data and statistics This empirical approach helps to unveil the true dynamics present within these procedures and demonstrates that whilst administrative remedies may improve the relationship between individuals and the EU administration their interplay with administrative autonomy might lead to a risk of fragmentation and incoherence in the EU administrative justice system *European SPCs Unravelled* Oswin Ridderbusch, Alexa von Uexküll, 2021-06-18 While supplementary protection certificates SPCs are governed by the same substantive rules in all Member States of the European Union and the European Economic Area EEA they are national intellectual property rights The formal requirements and procedural practices of the national patent offices granting SPCs still differ significantly and these divergences can have a substantial impact on the prosecution of SPCs across Europe This one of a kind handbook provides an in depth review of SPC law in Europe covering all substantive and procedural aspects of prosecution enforcement and invalidation as well as SPC related aspects of unfair competition law Following an overarching European chapter which addresses general considerations and the relevant European Union law including the jurisprudence of the Court of Justice CJEU and the EFTA Court this book contains detailed national chapters for all European states that provide SPCs i e the twenty seven EU Member States Austria Belgium Bulgaria Croatia Cyprus the Czech Republic Denmark Estonia Finland France Germany Greece Hungary Ireland Italy Latvia Lithuania Luxembourg Malta the Netherlands Poland Portugal Romania Slovakia Slovenia Spain and Sweden the EEA EFTA states Norway and Iceland as well as the United Kingdom Switzerland Liechtenstein Serbia Bosnia and Herzegovina Albania and North Macedonia The contributors to this book all seasoned experts in the field of SPCs in their respective jurisdictions provide clear and hands on guidance on the most pertinent SPC related topics of practical and strategic relevance The considerably expanded second edition of this handbook offers a comprehensive analysis of European SPC law and practice covering all European states with SPC systems in detailed

national chapters As such this book provides invaluable assistance to IP practitioners in devising successful pan European SPC filing and litigation strategies Its practice oriented approach in combination with a country by country format where all chapters follow the same structure makes it easy to compare the national practices and the respective national case law of the different European countries The present work fills a gap and provides for the first time an overview of the SPC practice in the EU Member States which despite the intended harmonization by the respective EU legislation is still decidedly inconsistent in some areas Altogether this successful work with its streamlined structure and clear language that is immediately comprehensible even to non native speakers functions not only as a source of information for European attorneys authorities and courts It also conveys perhaps not at all intended by the authors the unique diversity of this European legal regime which for many exerts a special fascination The present Practitioner s Guide can be recommended without reservation and should not be missing in any specialist library J rgen Schell Judge at the German Federal Patent Court on the first edition of this book The Clinical Diagnosis of Internal Diseases Lewellys Franklin Barker,1923
