Environmental Science Chapter Resource File 2006 Holt

Madeline Taylor,Tina Hunter

Environmental Science Chapter Resource File 2006 Holt:

Children's Books in Print, 2007, 2006 **Environmental Science** Holt Rinehart & Winston, 2006 Agricultural Land Use and Natural Gas Extraction Conflicts Madeline Taylor, Tina Hunter, 2018-11-02 Onshore unconventional gas operations in most jurisdictions operate on the legal principle that all activities during exploration and extraction are temporary in nature. The concept that the onshore unconventional gas industry has a temporary effect on the land on which it operates creates a regulatory paradox. On one hand, unconventional gas activities create energy security, national wealth, and a burgeoning export industry. On the other, agricultural land and agriculturalists may be significantly disadvantaged by unconventional gas activities, potentially producing permanent damage to non-renewable fertile soils and spoiling the underground water tables. Thus, threatening future food security and food sovereignty. This book explores the socio-regulatory dimensions of coexistence between agricultural and onshore unconventional gas land uses in the jurisdictions with the highest concentration of proven unconventional gas reserves: Australia, Canada, the USA, the UK, France, Poland, and China. In exploring the differing regulatory standpoints of unconventional gas land uses on productive farming land in the chosen jurisdictions, this book provides an original three-part categorisation of regulatory approaches addressing the coexistence of agricultural land and unconventional gas, namely adaptive management, precautionary, and finally statism. It offers a timely and topical approach to socio-legal natural resource governance theory based on the participation, transparency, and empowerment for agricultural landholders, examining how differing frameworks such as the collective bargaining framework can create equitable and sustainable contractual arrangements with unconventional gas companies. Holt Science & Technology Holt Rinehart and Winston, 2007-01-01 *Nebraska National Forest (N.F.), Allotment Management Planning in the McKelvie Geographic Area (Samuel R. McKelvie National Forest)*, 2010 **From Impacts to Adaptation**, 2008 Discusses current and future risks and opportunities that climate change presents to Canada with a focus on human and managed systems. Based on analysis of existing knowledge. **Auerbach's Wilderness Medicine E-Book** Paul S. Auerbach, Tracy A. Cushing, N.
