Eyrbyggja Saga Hermann Palsson, 2006-05-25 An Icelandic saga which mixes realism with wild gothic imagination and history with eerie tales of hauntings It dramatizes a 13th century view of the past from the pagan anarchy of the Viking age to the settlement of Iceland the coming of Christianity and the beginnings of organized society *Eyrbyggja Saga*, 1989-06-06 An Icelandic saga which mixes realism with wild gothic imagination and history with eerie tales of hauntings It dramatizes a 13th century view of the past from the pagan anarchy of the Viking age to the settlement of Iceland the coming of Christianity and the beginnings of organized society For more than seventy years Penguin has been the leading publisher of classic literature in the English speaking world With more than 1 700 titles Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors as well as up to date translations by award winning translators Saga Book of the Viking Society for Northern Research Viking Society for Northern Research, 1909 List of members in v 3 5 Skaldic Verse and the Poetics of Saga Narrative Heather O'Donoghue, 2005-08-11 Skaldic Verse and the Poetics of Saga Narrative is a detailed reading of a series of sophisticated medieval narratives the Old Norse Icelandic sagas It shows how saga authors achieved a wide range of stylistic and psychological effects through the interplay of prose and verse bringing history to life presenting fiction as if it were history and providing saga characters with dramatic dialogue and strange soliloquies Saga-book of the Viking Club Viking Society for Northern Research, 1913 List of members in v 3 5 Narrative in the Icelandic Family Saga Heather O'Donoghue, 2021-01-28 Representative of a unique literary genre and composed in the 13th and 14th centuries the Icelandic Family Sagas rank among some of the world's greatest literature Here Heather O Donoghue skilfully examines the notions of time and the singular textual voice of the Sagas offering a fresh perspective on the foundational texts of Old Norse and medieval Icelandic heritage With a conspicuous absence of giants dragons and fairy tale magic these sagas reflect a real world society in transition grappling with major new challenges of identity and development As this book reveals the stance of the narrator and the role of time from the representation of external time passing to the audience's experience of moving through a narrative are crucial to these stories As such Narrative in the Icelandic Family Saga draws on modern narratological theory to explore the ways in which saga authors maintain the urgency and complexity of their material handle the narrative and chronological line and offer perceptive insights into saga society In doing so O Donoghue presents a new poetics of family sagas and redefines the literary rhetoric of saga narratives **The Routledge Research Companion to the Medieval Icelandic Sagas** Ármann Jakobsson, Sverrir Jakobsson, 2017-02-17 The last fifty years have seen a significant change in the focus of saga studies from a preoccupation with origins and development to a renewed interest in other topics such as the nature of the sagas and their value as sources to medieval ideologies and mentalities The Routledge Research Companion to the Medieval Icelandic Sagas

presents a detailed interdisciplinary examination of saga scholarship over the last fifty years sometimes juxtaposing it with earlier views and examining the sagas both as works of art and as source materials This volume will be of interest to Old Norse and medieval Scandinavian scholars and accessible to medievalists in general *Death in Medieval Europe* Joelle Rollo-Koster,2016-10-04 *Death in Medieval Europe* *Death Scripted and Death Choreographed* explores new cultural research into death and funeral practices in medieval Europe and demonstrates the important relationship between death and the world of the living in the middle ages This volume explores overarching topics such as burials commemorations revenants mourning practices and funerals capital punishment suspicious death and death registrations using case studies from across Europe including England Iceland and Spain Drawing together and building upon the latest scholarship this book is essential reading for all students and academics of death in the medieval period **Final Judgement and the Dead in Medieval**

Jewish Thought Susan Weissman,2020-07-23 Through a detailed analysis of ghost tales in the Ashkenazi pietistic work *Sefer asidim* Susan Weissman documents a major transformation in Jewish attitudes and practices regarding the dead and the afterlife that took place between the rabbinic period and medieval times She reveals that a huge influx of Germano-Christian beliefs customs and fears relating to the dead and the afterlife seeped into medieval Ashkenazi society among both elite and popular groups In matters of sin penance and posthumous punishment the infiltration of Christian notions was so strong as to effect a radical departure in Pietist thinking from rabbinic thought and to spur outright contradiction of talmudic principles regarding the realm of the hereafter Although it is primarily a study of the culture of a medieval Jewish enclave this book demonstrates how seminal beliefs of medieval Christendom and monastic ideals could take root in a society with contrary religious values even in the realm of doctrinal belief *The Weather in the Icelandic Sagas* Bernadine

McCreesh,2019-01-15 The descriptions of the weather in medieval Icelandic sagas have long been considered unimportant mere adjuncts to the action This is not true the way the weather is depicted can give us an insight into the minds of medieval Icelanders The first part of this book illustrates how the Christian world view of authors of the twelfth to fourteenth centuries influenced their descriptions of meteorological conditions in earlier times The second part is more literary in approach It points out the formulaic nature of descriptions of storms and shows how references to the weather help to structure the narrative in some sagas It also demonstrates how medieval Icelandic attitudes to the weather affect the portrayal of the hero

Killing the Dead John Blair,2025-11-11 A riveting history of vampire panics across cultures and down through the millennia and why killing the dead is better than killing the living *Killing the Dead* provides the first in depth global account of one of the world's most widespread yet misunderstood forms of mass hysteria the vampire epidemic In a spellbinding narrative John Blair takes readers from ancient Mesopotamia to present day Haiti to explore a macabre frontier of life and death where corpses are believed to wander or do harm from the grave and where the vampire is a physical expression of society's inexplicable terrors and anxieties In 1732 the British public opened their morning papers to read of lurid

happenings in eastern Europe Serbian villagers had dug up several corpses and had found them to be undecayed and bloated with blood Recognizing the marks of vampirism they mutilated and burned them Centuries earlier the English themselves engaged in the same behavior In fact vampire epidemics have flared up throughout history in ancient Assyria China and Rome medieval and early modern Europe and the Americas Blair blends the latest findings in archaeology anthropology and psychology with vampire lore from literature and popular culture to show how these episodes occur at traumatic moments in societies that upend all sense of security and how the European vampire is just one species in a larger family of predatory supernatural entities that includes the female flying demons of Southeast Asia and the lustful yogin s of India Richly illustrated *Killing the Dead* provocatively argues that corpse killing far from being pathological or unhealthy served as a therapeutic and largely harmless outlet for fear hatred and paranoia that would otherwise result in violence against marginalized groups and individuals

Animal-human Relationships in Medieval Iceland Harriet J. Evans Tang, 2022 A multi disciplinary investigation of the links between people and animals in reality and representation Domestic animals played a range of roles in the imaginative world of medieval Icelanders from partners in settlement and household allies to violent offenders foster kin and surrogate wives they were vital and effective members of the multispecies communities established from the ninth century onwards This book examines the domestic animals of early Iceland in their physical and textual contexts through detailed analysis of the spaces and places of the Icelandic farm and farming landscape and textual sources such as *The Book of Settlements* the earliest Icelandic laws and various episodes from the Sagas and Tales of Icelanders Taking a multidisciplinary approach to animal human relationships it sees animals not solely as symbols metaphors or objects but as subjects in affective relationships with their human co settlers who become the focus of intense exploration delight anxiety and condemnation in later textual narratives By inviting readers to question how these sources form embrace or reject animal human relationships it provides a resource for understanding these archaeological sites and textual narratives differently as products of multispecies communities in which animals and humans lived worked and died together ation in later textual narratives By inviting readers to question how these sources form embrace or reject animal human relationships it provides a resource for understanding these archaeological sites and textual narratives differently as products of multispecies communities in which animals and humans lived worked and died together ation in later textual narratives By inviting readers to question how these sources form embrace or reject animal human relationships it provides a resource for understanding these archaeological sites and textual narratives differently as products of multispecies communities in which animals and humans lived worked and died together

Landscape, Tradition and Power in Medieval Iceland Chris Callow, 2020-08-03 Chris

Callow's *Landscape Tradition and Power* critically examines the evidence for socio-political developments in medieval Iceland during the so-called Commonwealth period. The book compares regions in the west and north-east of Iceland because these regions had differing human and physical geographies and contrasting levels of surviving written evidence. Callow sets out the likely economies and institutional frameworks in which political action took place. He then examines different forms of evidence: the Contemporary sagas, *Landnámabók* (The Book of Settlements) and Sagas of Icelanders, considering how each describes different periods of the Commonwealth, present political power. Among its conclusions, the book emphasises stasis over change and the need to appreciate the nuances and purposes of Iceland's historicising sagas. See inside the book.

Saga-book of the Viking Club, Society for Northern Research, 1897 *Islandica*, 1908 Icelandic Authors of To-day
Halldór Hermannsson, 1908 **Dealing With The Dead**, 2017-12-18. Death was a constant visible presence in medieval and renaissance Europe. Yet the acknowledgement of death did not necessarily amount to an acceptance of its finality. Whether they were commoners, clergy, aristocrats or kings, the dead continued to function literally as integrated members of their communities long after they were laid to rest in their graves. From stories of revenants bringing pleas from Purgatory to the living to the practical uses and regulation of burial space from the tradition of the *ars moriendi* to the depiction of death on the stage and from the making of martyrs to funerals for the rich and poor, this volume examines how communities dealt with their dead as continual albeit non-living members. Contributors are Jill Clements, Libby Escobedo, Hilary Fox, Sonsoles Garcia, Stephen Gordon, Melissa Herman, Mary Leech, Nikki Malain, Kathryn Maud, Justin Noetzel, Anthony Perron, Martina Saltamacchia, Thea Tomaini, Wendy Turner and Christina Welch. *Gender, Violence, and the Past in Edda and Saga* David Clark, 2012-03-29. *Gender, Violence, and the Past in Edda and Saga* is the first book to investigate both the relation between gender and violence in the Old Norse Poetic Edda and key family and contemporary sagas and the interrelated nature of these genres. Beginning with an analysis of eddaic attitudes to heroic violence and its gendered nature through the figures of Guðrún and Helgi, the study broadens out to the whole poetic compilation and how the past and particularly the mythological past inflects the heroic present. This paves the way for a consideration of the comparable relationship between the heroic poems themselves and later reworkings of them or allusions to them in the family and contemporary sagas. The book's thematic concentration on gender, sexuality and violence and its generic concentration on Poetic Edda and later texts which rework or allude to it enable a diverse but coherent exploration of both key and neglected Norse texts and the way in which their authors display a dual fascination with and rejection of heroic vengeance. **The Medieval Saga** Carol J. Clover, 2019-03-15. Written in the thirteenth century, the Icelandic prose sagas chronicling the lives of kings and commoners give a dramatic account of the first century after the settlement of Iceland, the period from about 930 to 1050. To some extent, these elaborate tales are written versions of traditional sagas passed down by word of mouth. How did they become the long and polished literary works that are still read today? The evolution of the written sagas is commonly regarded as an

anomalous phenomenon distinct from contemporary developments in European literature In this groundbreaking study Carol J Clover challenges this view and relates the rise of imaginative prose in Iceland directly to the rise of imaginative prose on the Continent Analyzing the narrative structure and composition of the sagas and comparing them with other medieval works Clover shows that the Icelandic authors using Continental models owe the prose form of their writings as well as some basic narrative strategies to Latin historiography and to French romance Paranormal Encounters in Iceland 1150-1400

Ármann Jakobsson, Mariusz Mayburd, 2020-03-23 This anthology of international scholarship offers new critical approaches to the study of the many manifestations of the paranormal in the Middle Ages The guiding principle of the collection is to depart from symbolic or reductionist readings of the subject matter in favor of focusing on the paranormal as human experience and essentially on how these experiences are defined by the sources The authors work with a variety of medieval Icelandic textual sources including family sagas legendary sagas romances poetry hagiography and miracles exploring the diversity of paranormal activity in the medieval North This volume questions all previous definitions of the subject matter most decisively the idea of saga realism and opens up new avenues in saga research
