Evolution and Transitions in Complexity Gerard A.J.M. Jagers op Akkerhuis, 2016-10-18 This book discusses several recent theoretic advancements in interdisciplinary and transdisciplinary integration in the field of evolution While exploring novel views the text maintains a close link with one of the most broadly held views on evolution namely that of Darwinian evolution This work puts forth a new point of view which allows researchers to define in detail the concept of evolution To create this conceptual definition the text applies a stringent object based focus With this focus the editor has been able to develop an object based pattern of evolution at the smallest scale Subsequently this smallest scale pattern is used as an innovative basis for generalizations These generalizations create links between biological Darwinism and generalized Darwinism The object based approach that was used to suggest innovations in the field of Darwinian evolution also allowed for contributions to other topics such as major evolutionary transitions theory the definition of life and the relationships between evolution self organization and thermodynamics Together the chapters of this book and the multidisciplinary reflections and comments of various specialists on these chapters offer an exciting palette of innovative ideas

Keeping Pace Laurie Morrison, 2024-04-09 Laurie Morrison's Keeping Pace is a poignant middle grade novel about friends turned rivals training for a half marathon and rethinking what it means to win and what they mean to each other Grace has been

working for years to beat her former friend Jonah Perkins's GPA so she can be named top scholar of the eighth grade. But when Jonah beats her for the title, it feels like none of Grace's academic accomplishments have really mattered. They weren't enough to win or to impress her dad. And then the wide empty summer looms. With nothing planned and no more goals or checklists, she doesn't know what she's supposed to be working toward. Eager for something to occupy her days, Grace signs up for a half marathon race that she and Jonah used to talk about running together. Jonah's running it, too. Maybe if she can beat Jonah on race day, she'll feel OK again. But as she begins training with Jonah and checking off a new list of summer goals, she starts to question what and who really matters to her. Is winning at all costs really worth it? Engaging and heartfelt. Keeping Pace is about wanting to win at all costs and having to learn how to fail. *A Million Little Bricks* Sarah Herman, 2012-09-26 The LEGO Group's history is as colorful as the toys it makes. This history charts the birth of the LEGO Group in the workshop of a Danish carpenter and its steady growth as a small family-run toy manufacturer to its current position as a market-leading award-winning brand.
