| <b>Welcome to Hurst NOW</b>             |  | This lecture introduces you to the Hurst NCLEX® Study Plan. All you need is your device – phone, tablet or laptop – and your Student Book when you begin the Core Content. <b>Student Book:</b> Once you receive your student book, complete your student pages as you view each lecture. These fill-in-the-blank student pages are your notes to study after you have watched all the videos, so protect this for safe keeping. Some students like to write in a blue ink pen so that there is a contrast between the questions and the answers. Do what works best for you as you progress with your studying.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

| <b>Core Content Lectures</b>            |  | <p><b>Med-Surg "Must-Know" Core Content Lectures:</b> Watch the lectures in order, as they are listed. The material is integrated, and each lecture builds on the material in the previous lectures. If you watch them out of order, you will miss important information required to critically and multi-logically think. Most lectures are divided into <b>20-25-minute sections</b> within each topic, so be sure you have allotted this amount of time as you study. All of the videos have  closed captioning available if you would like to use this feature as you watch the lecture. Also, at the end of each lecture, there are activities to guide your studying. These include suggestions for <b>reviewing</b> the material, <b>Content Post Test</b> questions, and ways to use your <b>Obank</b> practice questions – all to help you learn the material without a doubt or hesitation! *(Although the amount of time required to complete this review is based on your study habits and time available, we strongly encourage you to watch <b>all</b> the videos in a timely manner. We suggest that you complete all the core content lectures <b>within a 2-3 week period.</b>)</p> <p><b>*How to Pass Lecture:</b> The information in this lecture will guide you through the next step with the specialty lectures and instruct you how to study. (You should be able to say the material as we say it and know it without any doubts or hesitations.)
