photographic travelogues memoirs thematic collections and family sagas compiled between 1860 and 1960 and held by the McCord Museum of Canadian History this second edition includes a revised and expanded preface along with new photographs of the Notman albums Printed in colour throughout the enhanced material draws out the distinct nuances and details of each album giving them new life to tell their stories Albums are treasured by families collected as illustrations of the past by museums of social history and examined by scholars for what they can reveal about attitudes and sensibilities but when no one is left to tell the tale the intrigue of the album becomes a puzzle a suspended conversation Langford argues that oral consciousness provides the missing key Correlating photography and orality she explains how albums were designed to work as performances and how we can unlock their mysteries A fascinating glimpse of the preoccupations of previous centuries *Suspended Conversations* brings photography into the great conversation of how we remember and how we send our stories into the future

Lost Freedom Mathew Thomson, 2013-11 Lost Freedom addresses the widespread feeling that there has been a fundamental change in the social life of children in recent decades the loss of childhood freedom and in particular the loss of freedom to roam beyond the safety of home Mathew Thomson explores this phenomenon concentrating on the period from the Second World War until the 1970s and considering the roles of psychological theory traffic safety consciousness anxiety about sexual danger and television in the erosion of freedom Thomson argues that the Second World War has an important place in this story with war borne anxieties encouraging an emphasis on the central importance of a landscape of home War also encouraged the development of specially designed spaces for the cultivation of the child including the adventure playground and the virtual landscape of children s television However before the 1970s British children still had much more physical freedom than they do today Lost Freedom explores why this situation has changed The volume pays particular attention to the 1970s as a period of transition and one which saw radical visions of child liberation but with anxieties about child protection also escalating in response This is strikingly demonstrated in the story of how the paedophile emerged as a figure of major public concern Thomson argues that this crisis of concern over child freedom is indicative of some of the broader problems of the social settlements that had been forged out of the Second World War

W.G. Sebald's Hybrid Poetics Lynn L. Wolff, 2014-04-02 This book offers a new critical perspective on the perpetual problem of literature s relationship to reality and in particular on the sustained tension between literature and historiography The scholarly and literary works of W G Sebald 1944-2001 serve as striking examples for this discussion for the way in which they demonstrate the emergence of a new hybrid discourse of literature as historiography This book critically reconsiders the claims and aims of historiography by re evaluating core questions of the literary discourse and by assessing the ethical imperative of literature in the 20th and 21st centuries Guided by an inherently interdisciplinary framework this book elucidates the interplay of epistemological aesthetic and ethical concerns that define Sebald s criticism and fiction Appropriate to the way in which Sebald s works challenge us to rethink the boundaries between discourses genres disciplines and media this work proceeds in a methodologically non dogmatic way drawing on hermeneutics semiotics narratology and discourse theory In addition to contextualizing Sebald within postwar literature in German the book is the first English language study to consider Sebald s oeuvre as a whole Of interest for Sebald experts and

Anamnesia Peter Collier, Anna Magdalena Elsner, Olga Smith, 2009 Memory has always been crucial to French literature and culture as a means of mediating the relationship between perception and knowledge of the individual coming to terms with his identity in time Relatively recently memory has also emerged as the key force in the creation of a collective consciousness in the wider perspective of French cultural history This collection of essays selected from the proceedings of a seminar on Memory given by Dr Emma Wilson at the University of Cambridge offers a fresh evaluation of memory as both a cultural and an individual phenomenon in modern and contemporary French culture including literature cinema and the visual arts *Anamnesia* the book's title develops the Aristotelian concept of anamnesis recollection as a dynamic and creative process which includes forgetting as much as remembering concealment as much as imagination Memory in this extremely diverse range of essays is therefore far from being presented as a straightforward process of recalling the past but emerges as the site of research and renegotiation of contradictions and even aporia

Ghostwriting Richard T. Gray, 2017-11-16 Ghostwriting provides the first comprehensive analysis of the fictional prose narratives of one of contemporary Germany's most recognized authors the migr writer W G Sebald Examining Sebald's well known published texts in the context of largely unknown unpublished works and informed by documents and information from Sebald's literary estate this book offers a detailed portrait of his characteristic literary techniques and how they emerged and matured out of the practices and attitudes he represented in his profession as a literary scholar The title Ghostwriting signals the convergence in Sebald's works of a set of diverse historical questions philosophical views and literary practices Many historical ghosts haunt Sebald's narratives on the level of story Moreover Sebald's narrator plays the role of a ghostwriter in the profound sense that his stories fictionally re enact the histories of obscure but once living individuals whose lives they revitalize and whose fates are tied up with the most virulent historical conjunctures of the modern world This study thus seeks to comprehend the constitutive elements of Sebald's poetics of history his implementation of literary tools for effective historical memorializing
