FRBR Robert L. Maxwell, 2008-01-01 FRBR is now being integrated into cataloging theory and implemented into systems and practice Cataloging expert Maxwell offers clear concise explanations for every librarian interested in the next phase of access to their library's digital information *FRBR, Before and After* Karen Coyle, 2015-11-14 Coyle's expert ability to draw from the deep historical background of cataloging theory to illuminate the potentials of library data on the Web helped win her the 2011 ALCTS Outstanding Publication Award Here she persuasively argues that to more effectively connect library users with books movies music computer games and other resources library data needs to move beyond FRBR towards a more integrative approach to bibliographic models But doing so requires fundamental changes in the approach to library data Combining a sweeping perspective with a critical eye she assesses how we define a work in the bibliographic world Showing how bibliographic models reflect technology and our assumed goals of libraries she points the way ahead for catalogers and metadata specialists providing clear explanations and analysis on such topics as library data models and their connection to technology from early printing to relational databases and the Semantic Web ideas and influence of leading thinkers such as Lubetsky Wilson and Tillett along with lesser known theorists like Tanaguchi IFLA meetings that led to the FRBR study group including its original charge and final report FRBR as a conceptual model and how that differs from data models the FRBR document's flawed entity relationship model and how it overlooks user needs efforts to define a work as a meaningful creative unit separate from the physical package detailed analysis of the FRBR entities and implementations of FRBR both inside and outside the library community Coyle's articulate treatment of the issues at hand helps bridge the divide between traditional cataloging practice and the algorithmic metadata approach making this book an important resource for both LIS students and practitioners *The RDA Workbook* Margaret Mering, 2014-01-22 Whether a library catalogs its own materials or not librarians still need to have some understanding of RDA Designed to be used by academic public and school librarians this is the perfect introduction RDA Resource Description and Access was released in March 2013 and catalogers are busy trying to understand and implement the new protocols This book will help Unlike the RDA training materials prepared for seasoned catalogers by the Library of Congress and others the *The RDA Workbook Learning the Basics of Resource Description and Access* uses tried and true methods to make RDA clear even to those who have little or no previous cataloging knowledge The workbook can be used by an individual or to teach others in staff training sessions presentations or LIS courses It discusses the theoretical framework of the cataloging code details the steps necessary to create a bibliographic for books videos and other formats and shows librarians how to read and interpret authority records for persons families corporate bodies works and expressions Finally the workbook suggests strategies for implementing RDA

Directions in Music Cataloging Peter H. Lisi, Richard Griscom, 2012-01-01 In *Directions in Music Cataloging* ten of the field's top theoreticians and practitioners address the issues that are affecting the discovery and use of music in libraries today Anyone who uses music in a library be it a teacher researcher student or casual amateur relies on the work of music catalogers and because these catalogers work with printed and recorded materials in a wide variety of formats they have driven many innovations in providing access to library materials As technology continues to transform the discovery and use of music they are exploring ways to describe and provide access to music resources in a digital age It is a time of flux in the field of music cataloging and never has so much change come so quickly The roots of today's issues lie in the past and the first part of the volume opens with two articles by Richard P. Smiraglia that establish the context of modern music cataloging through research conducted in the early 1980s The second part explores cataloging theory in its current state of transition and the concluding part looks to the future by considering the application of emerging standards The volume closes with a remembrance of A. Ralph Papakhian 1948-2010 the most prominent music cataloger of the past thirty years a figure who initiated many of the developments covered in the volume and who served as a teacher and mentor for all of the contributors

Introduction to Cataloging and Classification Daniel N. Joudrey, Arlene G. Taylor, David P. Miller, 2015-09-29 A new edition of this best selling textbook reintroduces the topic of library cataloging from a fresh modern perspective Not many books merit an eleventh edition but this popular text does Newly updated *Introduction to Cataloging and Classification* provides an introduction to descriptive cataloging based on contemporary standards explaining the basic tenets to readers without previous experience as well as to those who merely want a better understanding of the process as it exists today The text opens with the foundations of cataloging then moves to specific details and subject matter such as Functional Requirements for Bibliographic Records (FRBR) Functional Requirements for Authority Data (FRAD) the International Cataloging Principles (ICP) and RDA Unlike other texts the book doesn't presume a close familiarity with the MARC bibliographic or authorities formats ALA's Anglo American Cataloging Rules 2nd Edition revised AACR2R or the International Standard Bibliographic Description (ISBD) Subject access to library materials is covered in sufficient depth to make the reader comfortable with the principles and practices of subject cataloging and classification In addition the book introduces MARC BIBFRAME and other approaches used to communicate and display bibliographic data Discussions of formatting presentation and administrative issues complete the book questions useful for review and study appear at the end of each chapter The
