Me Here in Kenya, I Am Fine Maxine Valdez, 2004-08 When I saw the Peace Corps advertisement in my neighborhood post office I couldn't think of any compelling reasons not to volunteer teacher in Riverside California and joined the Peace Corps She was sent to a small village in Kenya where she taught English in a girls secondary school Letters journal entries and anecdotes chronicle her experience *A Manual for the Heads of Secondary Schools in Kenya* Kenya. Ministry of Education, 1979 Burning Ambition Elizabeth Cooper, 2022-07-19 Burning Ambition explores how young people learn to understand and influence the workings of power and justice in their society Since 2008 hundreds of secondary schools across Kenya have been targeted with fire by their students Through an in depth study of Kenyan secondary students use of arson Elizabeth Cooper asks why With insightful ethnographic analysis she shows that these young students deploy arson as moral punishment for perceived injustices and arson proves an effective tactic in their politics from below Drawing from years of research and a rich array of sources Cooper accounts for how school fires stoke a national conversation about the limited means for ordinary Kenyans and especially youth to peacefully influence the governance of their own lives Further Cooper argues that Kenyan students actions challenge the existing complacency with the globalized agenda of education for all demonstrating that submissive despondency is not the only possible response to the failed promises of education to transform material and social inequalities *Parents*, 2008-07 **And Then Life Happens** Auma Obama, 2012-04-24 A moving account by Auma Obama about her life in Africa and Europe and her relationship with her brother Barack Obama While her younger brother Barack grew up in the U S and Indonesia Auma Obama's childhood played out at the other end of the world in a remote village in Kenya the birthplace of the siblings shared father Barack and Auma met for the first time in the 1980s and they built a lasting relationship which lead to travels together in Kenya research into their family history and finally Auma's support for her brother's political career and eventual bid for the U S presidency Auma spent sixteen years studying and living in Germany moved to England for love and gave birth to a daughter there The tension between her original and chosen worlds and cultures was a constant challenge and eventually Auma returned to Africa and worked to support young men and women in shaping their futures In *And Then Life Happens* her candid and emotional memoir Auma shares her own story as well as recollections of and experiences with her famous brother who says about their first encounter I hugged her we looked at each other and laughed I knew right then that I loved her **Kenya Citizens' Handbook 2002**, 2002

Kenya Charles Hornsby, 2013-03-01 Since independence from Great Britain in 1963 Kenya has survived five decades as a functioning nation state holding regular elections its borders and political system intact and avoiding open war with its neighbours and military rule internally It has been a favoured site for Western aid trade investment and tourism and has remained a close security partner for Western governments However Kenya's successive governments have failed to achieve adequate living conditions for most of its citizens violence corruption and tribalism have been ever present and its politics

have failed to transcend its history The decisions of the early years of independence and the acts of its leaders in the decades since have changed the country's path in unpredictable ways but key themes of conflicts remain over land money power economic policy national autonomy and the distribution of resources between classes and communities While the country's political institutions have remained stable the nation has changed its population increasing nearly five fold in five decades But the economic and political elite's struggle for state resources and the exploitation of ethnicity for political purposes still threaten the country's existence Today Kenyans are arguing over many of the issues that divided them 50 years ago The new constitution promulgated in 2010 provides an opportunity for national renewal but it must confront a heavy legacy of history This book reveals that history *Undertaking Educational Challenges in the 21st Century* Cynthia S Sunal, Kagendo Mutua, 2008-10-01 This is Book V in the series Research on Education in Africa the Caribbean and the Middle East The series strives to encourage the presentation of evidence based investigations using data collected on site from the three world regions it considers A strong focus is on data specific to a nation or to a region within a nation as we recognize that nations are diverse often encompassing regions with unique cultural and geographic characteristics The data are rooted in the voices of individuals and communities Such evidential data are analyzed and interpreted within the context of the complex human and natural environments from which they are derived Chapters in the books within the series describe investigations that are part of an effort to continue the publication of an annual compilation of research studies in the three world regions upon which the series focuses The series therefore indicates that the need to develop modern self sufficient independent and post colonial societies is being balanced with the need to strengthen cultural values and identities within these three world regions Book V in the series focuses on how the educational challenges found in these three world regions are addressed The chapters specifically examine related recent research identify useful investigative methodologies identify accomplishments in meeting challenges and consider unresolved challenges The overarching questions presented below were derived from an analysis of the questions methods and conclusions presented in the studies appearing in this book These overarching questions described here reflect the connections between educational issues that emerged in the 20th century and issues identified in the 21st century **Education in Eastern Africa** ,1974 Born in Polar's Den Camilius Chike Egeni, 2015-12-29 On the cusp of adulthood Meeka is about to confront a clash of lifestyles and cultures as she leaves her community in Canada's Far North and begins her education in the South Being a teenager in Nunavut comes with its own challenges but as a daughter of an Inuk hunter Meeka has enjoyed a certain status in her community Now Meeka goes from being a community leader to a meek student as she is lured into the harsh complexities of navigating a university town Born in Polar's Den is a coming of age novel that unapologetically explores the social political and demographic issues surrounding Canada's Arctic region and its aboriginal peoples The author's interest in Inuit culture shines through as he examines the experiences of Nunavut's young people in their transition to adulthood in **Diversified Secondary Education in Kenya**
