Kenya Secondary Examination English Paper 2013:

Public Examinations Examined Thomas Kellaghan, Vincent Greaney, 2019-11-19 High stakes public examinations exert a dominant influence in most education systems. They affect both teacher and student behavior especially at the middle and upper levels of secondary education. The content of past examinations tends to dictate what is taught and how it is taught and more important what is learned and how it is learned. By changing aspects of these examinations especially their content and format education systems can have a strong positive impact on teacher behavior and student learning help raise student achievement levels and better prepare students for tertiary level education and for employment. Examination agencies many of which have followed the same procedures over decades can learn from the successes and failures of other systems. This book addresses current issues related to the development administration scoring and usage of these high stakes public examinations identifying key issues and problems related to examinations in many emerging market economies as well as in advanced economies. The book's primary audience consists of public examination officials on national regional and state examination boards but the book should also be of interest to senior education policy makers concerned with certification and learning achievement standards to academics and researchers interested in educational assessment to governmental and education agencies responsible for student selection and to professionals at development organizations. This extremely well written and comprehensive book offers a timely review of the diversity of public examination practices worldwide of the tensions between examinations and learning and of the technical expertise involved in the creation of valid reliable and fair assessments. It reminds us that as the diploma disease takes hold with an ever greater intensity at every stage of education worldwide and the commercial business of testing flourishes those concerned with educational quality and meaningful learning must be on guard to prevent the assessment tail wagging the educational dog. Angela W Little Professor Emerita Institute of Education University College London. This book is very well structured and written and draws on the authors remarkable global knowledge across countries and histories. It will be a great asset both to administrators responsible for examinations and to academics and other professionals who seek to understand the nature and impact of examinations of different types and in different settings. Mark Bray UNESCO Chair Professor of Comparative Education University of Hong Kong and former Director UNESCO International Institute for Educational Planning. I am sure that *Public Examinations Examined* which thoroughly analyzes the practice of public examinations in different countries and makes profound and well grounded conclusions will arouse very great interest and will serve to further improve public examinations. Victor Bolotov Distinguished Professor Higher School of Economics National Research University Moscow member Russian Academy of Education and former Deputy Minister of Education Russian Federation. *English as a Language of Teaching and Learning for Community Secondary Schools in Tanzania* Elia Shabani Mligo, Mikael Mwashilindi, 2017-08-07 This book examines the challenges posed by English a foreign language as a language of teaching and learning for community secondary schools in

Tanzania in terms of academic performance The book probes the necessity for having two languages of instruction in the Tanzanian educational system While Kiswahili the native language is predominantly understood by the majority of people the discussion in this book indicates that most students in community secondary schools in Tanzania are incompetent in understanding writing listening reading and speaking English a language they use in learning and doing their examinations especially in the early stages of their secondary studies The incompetence in the above mentioned skills is mostly caused by their inability to cope with the abrupt transition in the languages of instruction from their pre primary and primary school study Kiswahili to secondary school study English Moreover most teachers are unable to use the English language as a means to impart knowledge or facilitate learning to their students leading them to code switching and code mixing This book poses a challenge to countries whose students pass through a transition from one language of instruction to another in their educational systems helping them to make appropriate decisions in regard to the appropriate language of teaching and learning

Initial English Language Teacher Education Darío Luis Banegas, 2017-05-18 Trainees voices beliefs and experiences as learners shaped by the tension and dialogue between internal and external theories of teaching and learning inevitably penetrate the Initial English Language Teacher Education IELTE curriculum Scrutinising these beliefs and experiences Initial English Language Teacher Education provides readers with vivid and informed accounts of IELTE from around the world Approaching IELTE from a sociocultural perspective the authors analyse future teachers trajectories and educational histories in order to understand their experiences as learners unpack internal beliefs and problematise the relationships between such beliefs with theories and research in the field Exploring accounts from a number of under researched contexts Initial English Language Teacher Education investigates and analyses perspectives from Argentina Brazil China Colombia Kenya Singapore South Africa Spain and Uruguay Through the eyes of future teachers the chapters address issues such as trainee motivation tensions between theory and practice role of feedback teacher development and identity critical pedagogies online teacher education and intercultural awareness

Language Development and Social Integration of Students with English as an Additional Language Michael Evans, Claudia Schneider, Madeleine Arnot, Linda Fisher, Karen Forbes, Yongcan Liu, Oakleigh Welply, 2020-07-16 Given the current context of the experience of migration on schools in England and Europe and the competing policies and approaches to social integration in schools there is a need to understand the connection between language development and social integration as a basis for promoting appropriate policies and practices This volume explores the complex relationship between language education and the social integration of newcomer migrant children in England through an in depth analysis of case studies from schools in the East of England The authors set this evidence against the background of policy debates in the wider international setting including a critical discussion of assumptions underlying national narratives of mainstreaming and assimilation In the light of an absence of national guidelines for appropriate practice in schools the authors outline a model of inclusive pedagogy for English as an

additional language EAL and a framework of home school communication to promote effective EAL parental engagement in schools

Bilingualism and Bilingual Education: Politics, Policies and Practices in a Globalized Society B. Gloria Guzmán Johannessen, 2019-01-14 This volume presents a multinational perspective on the juxtaposition of language and politics Bringing together an international group of authors it offers theoretical and historical constructs on bilingualism and bilingual education It highlights the sociocultural complexities of bilingualism in societies where indigenous and other languages coexist with colonial dominant and other prestigious immigrant languages It underlines the linguistic diaspora and expansion of English as the world's lingua franca and their impact on indigenous and other minority languages Finally it features models of language teaching and teacher education This book challenges the existent global conditions of non dominant languages and furthers the discourse on language politics and policies It does so by pointing out the need to change the bilingual multilingual educational paradigm across nations and all levels of educational systems Education for All 2000-2015: Achievements and challenges UNESCO, 2015-04-08 Literaturverz S 414 459

Gender and Education in Kenya Esther Mukewa Lisanza, 2021-04-28 Gender and Education in Kenya explores the intersections of curriculum pedagogy policy and gender The contributors study depictions of gender in textbooks the presence and roles of girls and women within classrooms in Kenya and female leadership in education arguing that despite recent policies put in place by the Kenyan government to ensure gender parity in education there is still a need to make curriculum more gender responsive Gender and Education in Kenya examines the disparity between male and female representation in education and advocate for more training for teachers about gender related educational policies and implementing gender responsive objectives in classrooms The collection concludes with a study of the intersection of gender and disability with a chapter that explores the additional challenges for a blind girl in school and the lack of policies in place to help disabled students

Deaf Education Beyond the Western World Harry Knoors, Maria Brons, Marc Marschark, 2019-01-16 If teachers want to educate deaf learners effectively they have to apply evidence informed methods and didactics with the needs of individual deaf students in mind Education in general and education for deaf learners in particular is situated in broader societal contexts where what works within the Western world may be quite different from what works beyond the Western world By exploring practice based and research based evidence about deaf education in countries that largely have been left out of the international discussion thus far this volume encourages more researchers in more countries to continue investigating the learning environment of deaf learners based on the premise of leaving no one behind Featuring chapters centering on 19 countries from Africa Asia Latin America and Central and Eastern Europe the volume offers a picture of deaf education from the perspectives of local scholars and teachers who demonstrate best practices and challenges within their respective regional contexts This volume addresses the notion of learning through the exchange of knowledge outlines the commonalities and differences between practices and policies in educating deaf and hard of hearing learners and looks ahead to the prospects for the future development of deaf

education research in the context of recently adopted international legal frameworks Stimulating academic exchange regionally and globally among scholars and teachers who are fascinated by and invested in deaf education this volume strengthens the foundation for further improvement of education for deaf children all around the world

and its sustainability over two years Although the program specifically targeted out of school girls for enrollment the learning component of the program targeted boys and girls equally We find that the program reduced gender gaps in school retention and improved learning during the first year of implementation However targeting different educational goals access quality and equity did not yield sustained effects on school attendance or learning nor did it bridge gender inequalities in school performance over the two year period
